ELECTRICAL CONSTRUCTION CAPITAL ACCOUNT

The Electrical Construction Capital Account is established for the purpose of constructing, maintaining and repairing street lighting and other public electric facilities, and for the purpose of purchasing and maintaining a stock of material and supplies in connection therewith, the expense of which is to be reimbursed from appropriations of City funds, from funds of other governmental agencies or by private persons.

This account shall be maintained and used subject to the conditions and limitations of Sections 7-24.1 to 7-24.10 of the Municipal Code of Chicago and the conditions and limitations herein set forth.

Charges shall be based on the total cost of furnishing material and services, including for incidental and overhead expense, not to exceed the following percentages: Twenty per cent of the direct labor charges and seven per cent of the material and other charges; provided that charges for the use of trucks, compressors, mixers and other rolling and mechanical equipment shall be made on a unit rate per day or other unit as shall be determined by the Commissioner of Streets and Sanitation and approved by the Comptroller. Such unit rate or other basis of charge shall be determined and shall be adjusted from time to time on the basis of actual cost for furnishing the use of such equipment, which cost shall include expense incidental to the maintenance, housing and operation of such rolling and mechanical equipment and an appropriate charge for depreciation. The rates or other basis as determined from time to time shall be reported to the Committee on Finance of the City Council showing the various details included as parts of the total rate or other basis.

A reserve for depreciation shall be set up for all charges for depreciation included in the costs. Amounts equivalent to the periodic charges for depreciation shall be transferred from the general cash of the Electrical Construction Capital Account to a depreciation reserve fund and expended therefrom for the replacement of rolling and mechanical equipment.

ENGINEERING REVOLVING FUND

The Engineering Revolving Fund is established for the purpose of doing the necessary work in connection with the engineering, inspection and supervision of projects under the jurisdiction or supervision of the Department of Public Works of the City of Chicago, the expense of which is to be reimbursed from appropriations of the City funds, from funds of other governmental agencies or by private persons.

This account shall be maintained and used subject to the conditions and limitations of Section 7-24.1 to 7-24.10 of the Municipal Code of Chicago and to the conditions and limitations herein set forth.

Charges shall be based on the total cost of furnishing the services including not to exceed twenty percent for overhead and incidential expenses, provided that the engineering and drafting furniture, machinery and equipment used in the furnishing of services shall be charged for at fair rates as established by the department, subject to the approval of the Comptroller. Such rates for furniture and equipment used in furnishing of services shall be determined and shall be adjusted from time to time on the basis of actual cost for furnishing the use of such equipment, which cost shall include expense incidental to the maintenance and operation of such equipment and furniture and an appropriate charge for depreciation. The rates or other basis as determined from time to time shall be reported to the Committee on Finance of the City Council showing the various details included as parts of the total rate or other basis.

A reserve for depreciation shall be set up for all charges for depreciation included in the costs. Amounts equivalent to the periodic charges for depreciation shall be transferred from the general cash of the Engineering Revolving Fund to a Depreciation Reserve Fund and expended therefrom for the replacement of equipment.

Expenditures are authorized for all items as may be necessary, as shall enter into or become a part of the cost of furnishing the services herein authorized.

Expenditures for salaries and wages, including increments for schedule salary adjustments, and compensation for use of personally-owned automobiles are limited to such positions, such number of positions, and rates of compensation as are specified hereunder.

Additional compensation of twenty-five cents per hour is authorized to be paid to employes during such periods as they may work under compressed air.

Overtime at established rates is authorized to be paid to employes.

BUREAU OF STREET TRAFFIC

The Bureau determines the need for those improvements of streets and intersections that will facilitate the movement of traffic. It checks engineering designs of such facilities, from the traffic engineering standpoint. It determines the need for, and orders installation of traffic signals, traffic and directional street signs. The Bureau analyzes traffic accident records, develops accident prevention measures, and otherwise promotes traffic safety.

9. Whereas, upon completion of the construction contemplated by this Agreement, the maintenance of the S. Pulaski Road Viaduct will become the responsibility of City, as hereinafter set forth; and

10. Whereas, in the interest of public safety, convenience, and necessity, the parties hereto propose to continue the separation of grades at the intersection of S. Pulaski Road and the tracks and right-of-way of Santa Fe by reconstructing a viaduct as aforesaid, at the above described location; and

11. Whereas, this project is to be financed, in part, by the use of funds appropriated by the Federal Government, which requires the computations of cost and expense, except as hereinafter provided, to be in accordance with the United States Department of Commerce, Bureau of Public Roads' "Policy and Procedure Memorandum 30-3", entitled "Reimbursement for Railroad Work", and dated August 15, 1955, with subsequent amendments thereto;

Now, Therefore, in consideration of the premises and of the mutual promises hereinafter contained, the parties hereto agree as follows:

Section 1: Grant of Easement by Santa Fe.

1.1 Santa Fe hereby grants State the right to construct, reconstruct, use, and occupy, in perpetuity for highway purposes, the aforesaid reconstructed S. Pulaski Road Viaduct over and across the right-of-way of Santa Fe, in conformance with Exhibit "A", entitled "Southwest Expressway-Pulaski Road Bridge", attached hereto and made a part hereof. Such grant is made contingent upon the prior termination of the aforementioned similar grant to City as provided in the aforementioned City ordinance.

1.2 Santa Fe reserves the right unto itself, its successors, assigns, grantees, lessees, and licensees to use its right-of-way for any and all purposes whatsoever, provided, however, that such use or uses shall not substantially interfere with, substantially reduce, nor substantially curtail in any way the aforesaid grant.

Section 2: Engineering Work by State.

2.1 State shall, at its own expense, prepare preliminary and final detailed plans, field surveys, estimates of cost, specifications, proposal forms, and necessary special provisions and furnish the construction engineering, for the reconstruction of the aforesaid S. Pulaski Road Viaduct.

2.2 All such plans, specifications, special provisions, and construction procedures shall be subject to approval by Santa Fe.

Section 3: Engineering Work by Santa Fe.

3.1 State shall reimburse Santa Fe for the preliminary engineering costs incurred by Santa Fe in the review of this Agreement and State's preliminary and final detail plans, specifications, proposal forms, and special provisions for the aforesaid reconstruction of the S. Pulaski Road Viaduct and appurtenances thereto.

Section 4: Construction Documents.

4.1 No changes shall be made in any approved plans, specifications, or special provisions by either party hereto without the written consent of the other party hereto.

4.2 State will furnish Santa Fe upon request prints of any of State's plans, specifications, and special provisions pertaining to this project. Upon the completion of the construction proposed by this Agreement, State will furnish Santa Fe upon request reproduced tracings of the "as-built" plans for this project.

Section 5: Construction Work by State.

5.1 State agrees to furnish, or cause to be furnished, at no expense to Santa Fe, all the labor, materials, work, and equipment required to perform and complete the widening and reconstruction of the aforesaid viaduct and appurtenances thereto, together with the construction of all other highway facilities over the tracks and across the right-of-way of Santa Fe, in accordance with the aforementioned plans, specifications, and special provisions therefor, to be approved as aforesaid, all of which is shown on the aforementioned Exhibit "A".

5.2 All work affecting Santa Fe's facilities and operations shall be awarded by State to a competent Contractor (or Contractors) experienced in such work and having adequate equipment, organization, and finances to do the work safely and effectively. All such awards shall be subject to Santa Fe's approval.

5.3 State shall require its Contractor (or Contractors) to assume and bear the cost of all protective measures which Santa Fe may deem necessary to safeguard Santa Fe's employees, tracks, trains, and other property or facilities, as adopted and agreed upon at the conference hereinafter provided for, or as otherwise seen fit to protect Santa Fe's operations made necessary by construction methods employed by State's Contractor (or Contractors). Flagmen shall be provided to protect Santa Fe's tracks, trains, and traffic, in accordance with the requirements set forth in Article 7.13 of State's "Standard Specifications for Road and Bridge Construction", as adopted January 2, 1958; State's "Supplemental Specifications", effective April 2, 1962; the United States Department of Commerce, Bureau of Public Roads' Policy and Procedure Memorandum 30-3(4) and 21-10(5), respectively entitled "Reimbursement for Railroad Work" and "Elimination of Hazards of Railway-Highway Crossings", and both dated January 16, 1961, and State's "Special Provisions for Protection of Railroad Traffic and Property Due to the Contractor's Construction Operations", effective July 2, 1962. The aforesaid Special Provisions, designated as Exhibit "B", are attached hereto and made a part hereof, and will be included in the State's contract proposals for the reconstruction and widening of the aforementioned viaduct.

5.4 State shall require its Contractor (or Contractors) to reimburse Santa Fe for its actual cost of the aforesaid protective measures promptly upon the receipt of bills for same. State agrees to withhold final payment to its Contractor (or Contractors) until Santa Fe has notified State that all such bills have been paid.

5.5 After the award of any contract or contracts contemplated by this Agreement, and before work is started on this project, a conference shall be held between State, City, the U.S. Bureau of Public Roads, Santa Fe, and the Contractor (or Contractors), at a time and place to be designated by State, for the purpose of coordinating the work to be performed. At this meeting, a tentative schedule of operations shall be adopted and measures agreed upon to meet Santa Fe's requirements for the maintenance of its clearances, the protection of its operations, and additional safety regulations. Additional conferences will be held as the work progresses and the need arises.

Section 6: Railroad Force Account Work and Billing.

6.1 In the interest of efficiency and expediency in the overall construction of the Southwest Expressway in the vicinity of this Project, such temporary and permanent changes in Santa Fe's tracks, signal and communications systems, and other operating facilities necessitated by the construction of this improvement shall be included as part of the Railroad Force Account Work for F.A. Project IG-55-7(30)-283, Section 1313-622 SB, Santa Fe's West "Wye" Grade Separation Structure at Corwith, West of S. Central Park Avenue, which force account work will also include the relocation of the joint signal and communications pole line of Santa Fe and the Western Union Telegraph Company, between Corwith and Nerska (S. Pulaski Road).

6.2 Therefore, none of the aforesaid Railroad Force Account Work will be chargeable to this Project, unless Santa Fe shall request authorization from State for such additional force account work which for some unforeseen reason should be chargeable to this Project. In such event, Santa Fe shall furnish a force account work plan and estimate of cost upon requesting such special authorization, and this plan and estimate will be made supplemental exhibits to this Agreement.

6.3 Similarly, in the event of any changes in State's plans, specifications, or special provisions which might necessitate Railroad Force Account Work specifically chargeable to this Project, Santa Fe shall submit an estimate of cost of such additional force account work to State for its approval, prior to the commencement of such additional work. State shall promptly approve such estimate, if it complies with the provisions of this Section.

6.4 In the event of emergency work necessary to safeguard and maintain operation of Santa Fe's traffic and trains during the construction of this improvement, an estimate of the cost of doing this additional work shall be prepared by Santa Fe and submitted to State promptly after such work has been done.

6.5 State shall reimburse Santa Fe for any additional expense not chargeable to the West "Wye" Grade Separation Project, which might be necessitated by a change in plans, specifications, or

special provisions, in accordance with Section 4 herein, or by the aforementioned emergency work. This reimbursement shall be made at the same unit costs for material and rates for labor shown in the aforementioned estimates of cost for additional Railroad Force Account Work specifically chargeable to this Project, subject to the "escalator" provisions of this Section. The billing for this additional material and labor shall be made in accordance with the provisions contained in this Section.

6.6 It is further understood that if, as of the time the aforementioned additional work is performed by Santa Fe, the material costs and labor rates are greater than those in effect on the date of the aforementioned supplemental estimates of cost, the total cost shown on said supplemental estimates shall be increased by an amount or amounts corresponding to the increases in the material costs and labor rates; provided, however, that the increase in the cost of material and labor shall not have been caused by any unreasonable delay of Santa Fe in the performance of its work hereunder.

6.7 In the interest of safety and continuity in Santa Fe's operations, during the work by State's Contractor (or Contractors) described in the preceding Section 5 of this Agreement, Santa Fe agrees to furnish the necessary preliminary and construction engineering, inspection, and protective services necessitated by the operations of State's Contractor (or Contractors) on this Project, except that the construction engineering necessary for the layout and construction of the construction work by State described in the preceding Section 5 of this Agreement will be furnished by State at its own expense. With this exception, the engineering and inspection services will be furnished by Santa Fe at State's expense, in accordance with Exhibit "C" entitled "S. Pulaski Road Viaduct—The Atchison, Topeka and Santa Fe Railway Company —Railroad Inspection", and attached hereto and made a part hereof. The protective services (flagmen), also described in the aforesaid Exhibit "C", will be furnished by Santa Fe at the expense of State's Contractor (or Contractors), who will reimburse Santa Fe for these services, in accordance with the provisions of the preceding Paragraph 5.4 of this Agreement.

6.8 Santa Fe shall submit to State a monthly statement, in sets of ten each, of all the actual cost and expense incurred by it or for its account performed at the expense of State and specifically chargeable to this Project, in accordance with Paragraphs 6.2, 6.3, 6.4, 6.5, and 6.7 hereinabove. After State has checked such statements and has found them to be correct, State shall reimburse Santa Fe within thirty days of receipt of bills for ninety-five percent of the amount thereof. Such reimbursement, however, will be audited by State each six months and will further be subject to the requirement that all expense billed to State must be for charges allowable under the provisions of the United States Department of Commerce, Bureau of Public Roads' "Policy and Procedure Memorandum 30-3", entitled "Reimbursement for Railroad Work", and dated August 15, 1955, with subsequent amendments thereto.

6.9 Santa Fe shall furnish State a daily statement of the actual labor performed on this project and specifically chargeable to this Project, in accordance with Paragraphs 6.2, 6.3, 6.4, 6.5, and 6.7 hereinabove, in the form and manner as may be required by State, and in accordance with the provisions of the aforementioned "Policy and Procedure Memorandum 30-3" and amendments thereto.

6.10 All of Santa Fe's cost records and accounts relating to this Project are subject to audit by representative of State and/or the U.S. Bureau of Public Roads. During the progress of construction and until the audit of Santa Fe's records has been completed, the records and the accounts pertaining to the construction of the project shall be available for inspection by the representative of State and the U.S. Bureau of Public Roads. The final billing shall show the description and site of the project, the Federal-Aid project number, the date on which the first work was performed or on which the earliest item of billed expense was incurred, the date on which the last work was performed or the last item of billed expense was incurred, and the location where the records and accounts of costs billed can be audited. Santa Fe shall make adequate reference in the billing to its records, accounts, and other relevant documents.

6.11 After State and the U.S. Bureau of Public Roads have examined, audited, and approved the final bill, State shall reimburse Santa Fe for the retained percentage, less the deduction of any item (or items) of expense found by either State or the U.S. Bureau of Public Roads not to be in compliance with the provisions of said "Policy and Procedure Memorandum 30-3".

Section 7: Operations of State's Contractor.

7.1 Santa Fe hereby agrees to permit State's Contractor (or Contractors) to perform all of the items of work enumerated in Section 5 herein, as shown on the aforementioned Exhibit "A", and in accordance with the provisions of this Section and of the aforesaid Section 5.

7.2 State shall require its Contractor (or Contractors) to consider the safety and continuity of Santa Fe's traffic operations to be of first importance and to be protected and safeguarded at all times. State shall further require its Contractor (or Contractors) to maintain the clearances stipulated in the aforementioned Exhibit "B" at all times and to otherwise conduct his (or their) operations upon Santa Fe's aforementioned right-of-way in full compliance with Santa Fe's rules, regulations and operating requirements.

7.3 State shall require its Contractor (or Contractors) to give written notice to the Division Superintendent of Santa Fe, located at the Terminal Building, Corwith Yard, 3611 West 38th St., Chicago 32, Illinois, at least one week prior to the commencement of his (or their) operations on Santa Fe's right of way or in the vicinity of Santa Fe's tracks and operating facilities.

7.4 Whenever such work, in the opinion of Santa Fe's Chief Engineer or duly authorized representative, may affect the safety of trains and the continuity of Santa Fe's operations, the method of doing suh work shall first be submitted to Santa Fe's Chief Engineer for his approval, which shall not be unreasonably withheld or delayed, and without which the work shall not be commenced or prosecuted.

7.5 The approval of Santa Fe's Chief Engineer shall not be construed as a release of State's Contractor, his subcontractor, or his or their employees from responsibility or liability for any claims against Santa Fe or for any damage Santa Fe may suffer.

7.6 In the event that Santa Fe's Chief Engineer shall deem any of the work or operations of State or State's Contractor (or Contractors) hazardous to Santa Fe's operations, State shall suspend, or cause its Contractor (or Contractors) to suspend, such work until reasonable remedial measures sat-

isfactory to Santa Fe's Chief Engineer or his duly authorized represntative, are taken. Said remedial measures shall be at State's expense.

7.7 Santa Fe shall have the right at all times to have a reasonable force of inspectors at the site of the work to be performed under this Agreement.

Section 8: Insurance.

8.1 Before the commencement of any work under this Agreement, State shall require its Contractor (or Contractors) to procure insurance in accordance with the provisions of the United States Department of Commerce, Bureau of Public Roads' "Policy and Procedure Memorandum 20-12", entitled "Railway-Highway Insurance Protection Required of Contractors", and dated March 5, 1959. Such insurance shall be in the form and amounts set forth in the aforementioned Exhibit "B", which will protect and save harmless Santa Fe and State as stated therein. Such insurance shall remain in full force and effect during the period of construction and until completion of, and acceptance of, the work by the parties hereto and thereafter as respects occurrences and losses which are caused or occur within the period aforementioned.

8.2 Santa Fe agrees to indemnity State against, and save it harmless from, loss of, or damage to, property and injury to, or death of, any person or persons and from court costs, attorney's fees, and expenses incidental thereto, resulting from the work to be performed hereunder by Santa Fe, and caused by the sole negligence of Santa Fe, its Contractor (or Contractors), or its or their respective officers, agents, or employees.

Section 9: Cleaning and Restoration of Santa Fe's Right of Way.

9.1 Upon final completion of work by State's Contractor (or Contractors), State shall require its Contractor (or Contractors) to remove all machinery, equipment, surplus material, falsework, rubbish, or temporary buildings of such Contractor (or Contractors) from within the limits of Santa Fe's aforementioned right of way and to leave such right of way in a condition satisfactory to Santa Fe's Chief Engineer; provided, however, that if this provision has not been complied with within 90 days after final completion of work, Santa Fe may undertake said restoration at the expense of State.

Section 10: Maintenance.

10.1 After the widening and reconstruction of the S. Pulaski Road Viaduct, as described herein, has been completed, City shall, at its own cost and expense, maintain, repair and renew that portion of the viaduct which is over Santa Fe's right of way and tracks.

10.2 All cost of protecting and maintaining Santa Fe's traffic during the aforesaid maintenance, repair, and renewal shall be borne by City.

10.3 In the event of damage to the aforesaid reconstructed viaduct resulting from accidents attributed solely to negligence in Santa Fe's operations, Santa Fe shall, at its own cost and expense, make the repairs necessary to restore said structure substantially to its former condition.

10.4 Santa Fe shall, at its own cost and expense, maintain, repair, and renew, or cause same to be done, its tracks, signals, communications, and all other of its facilities which may have been constructed, altered, relocated, or otherwise changed under the terms of this Agreement.

Section 11: Approval of the U.S. Bureau of Public Roads and the Illinois Commerce Commission.

11.1 This Agreement shall not be binding upon the parties hereto until the United States Bureau of Public Roads has approved same and the Illinois Commerce Commission has entered an order approving same and both of these agencies have authorized the work herein described to be done under the terms herein set forth.

Section 12: Execution of Agreement.

12.1 This Agreement shall be binding upon and inure to the benefit of the parties hereto, their successors and assigns.

12.2 Pursuant to the execution of this Agreement by all of the parties hereto, City shall enact an Ordinance acceptable to Santa Fe, which will permit the work described herein and which will completely supersede all of the S. Pulaski Road (S. Crawford Avenue) provisions of the aforementioned City Ordinance of July 15, 1925, and which will comply with the provisions of Section 1.1 hereof.

Section 13: Termination of Agreement.

13.1 In the event of delays or difficulties in: (1) obtaining the necessary approvals of the United States Bureau of Public Roads, (2) acquiring rights of way, or (3) settling damage claims, which delays make it impractical to proceed with the aforementioned project, then at any time prior to the awarding by State of a contract for the construction of this project or the start of actual construction pursuant to approval by the U. S. Bureau of Public Roads, State may serve formal notice to Santa Fe and City of the concellation of this Agreement, which shall thereupon become null and void.

13.2 Upon receiving formal notice from State canceling this Agreement, Santa Fe shall prepare and submit to State a bill for all preliminary engineering and railroad force account expense incurred by Santa Fe in connection with this project up to the time of the aforesaid formal notice. After State has reviewed such bill, the approved amount thereof shall be promptly reimbursed to Santa Fe.

5.7 State shall require its Contractor (or Contractors) to reimburse Santa Fe for its actual cost of the aforesaid protective measures promptly upon the receipt of bills for same. State agrees to withhold final payment to its Contractor (or Contractors) until Santa Fe has notified State that all such bills have been paid.

5.8 After the award of any contract or contracts contemplated by this Agreement, and before work is started on this project, a conference shall be held between State, City, the U.S. Bureau of Public Roads, Santa Fe, and the Contractor (or Contractors), at a time and place to be designated by State, for the purpose of coordinating the work to be performed. At this meeting, a tentative schedule of operations shall be adopted and measures agreed upon to meet Santa Fe's requirements for the maintenance of its clearances, the protection of its operations, and additional safety regulations. Additional conferences will be held as the work progresses and the need arises.

Section 6: Railroad Force Account Work and Billing.

6.1 Santa Fe agrees to make, at the expense of State, such temporary and permanent changes in its tracks, signal and communications systems, and other operating facilities as may be necessitated by the construction of the aforementioned highway improvements, except such changes as will be made by State, in accordance with the preceding Section 5 of this Agreement.

6.2 The aforesaid Santa Fe Force Account Work in connection with the subject projects is shown on Exhibit "C", a plan prepared by Santa Fe, entitled "Reconstruction of S. Cicero Avenue Underpass and Construction of Interchange Connection with Southwest Expressway—'Shoofly' Plan 'D' ", dated May 15, 1963, designated Plan No. C.E.O.T. 10285-D, and attached hereto and made a part hereof.

6.3 Santa Fe estimates the total cost of these changes to be $91,530.00, as shown on Exhibit "D", an estimate of cost of materials and force account work, prepared by Santa Fe, dated December 13, 1962, and attached hereto and made a part hereof. This estimated sum has been computed on the basis of the cost of materials and labor rates in effect on the date of said estimate and shall not be deemed a maximum total cost.

6.4 In the event of any changes in State's or Santa Fe's plans, specifications, or special provisions, Santa Fe shall submit a revised estimate of cost to State for its approval, prior to the commencement of the work involved. State shall promptly approve such revised estimate, if it complies with the provisions of this Section. In the event of emergency work necessary to safeguard and maintain operation of Santa Fe's traffic and trains during the construction of these improvements, a revised estimate including the cost of doing this additional work shall be prepared by Santa Fe and submitted to State promptly after such work has been done.

6.5 State shall reimburse Santa Fe for any additional expense, other than that shown on Exhibit "D", which might be necessitated by a change in plans, specifications, or special provisions, in accordance with Section 4 hereof, or by the aforementioned emergency work. This reimbursement shall be made at the same unit costs for material and rates for labor as are reflected in Exhibit "D", subject to the "escalator" provisions of this Section. The billing for this additional material and labor shall be made in accordance with the provisions contained in this Section.

6.6 It is further understood that if, as of the time the work is performed by Santa Fe, the material costs and labor rates are greater than those in effect on the date of the aforementioned Exhibit "D", the total estimated cost shown on said Exhibit "D" shall be increased by an amount or amounts corresponding to the increases in the material costs and labor rates; provided, however, that the increase in the cost of material and labor shall not have been caused by any unreasonable delay of Santa Fe in the performance of its work.

6.7 In the interest of safety and continuity in Santa Fe's operations, during the work by State's Contrator (or Contractors) on this project, except that the construction engineering necessary for the layout and construction of the construction work by State described in the preceding Section 5 of this Agreement will be furnished by State at its own expense. With, this exception, the engineering and inspection services will be furnished by Santa Fe at State's expense, in accordance with Exhibit "E", entitled "Southwest Expressway—The Atchison, Topeka and Santa Fe Railway Company—Railroad Flagging and Inspection", and attached hereto and made a part hereof. The protective services (flagmen), also described in the aforesaid Exhibit "E", will be furnished by Santa Fe at the expense of State's Contractor (or Contractors), who will reimburse Santa Fe for these services in accordance with the provisions of the preceding Section 5 of this Agreement.

6.8 Santa Fe shall submit to State a monthly statement, in sets of ten each, of all the actual

cost and expense incurred by it, or for its account performed at the expense of State, in accordance with the aforementioned provisions of this Section. After State has checked such statements and has found them to be correct, State shall reimburse Santa Fe within thirty days of receipt of bills for ninety-five percent of the amount thereof Such reimbursement, however, will be audited by State each six months and will further be subject to the requirement that all expense billed to State must be for charges allowable under the provisions of the aforementioned "Policy and Procedure 30-3", and amendments thereto.

6.9 Santa Fe shall furnish State a daily statement of the actual labor performed on this project, in the form and manner as may be required by State, and in accordance with the provisions of the aforementioned "Policy and Procedure Memorandum 30-3" and amendments thereto.

6.10 All of Santa Fe's cost records and accounts relating to this project are subject to audit by representatives of State and/or the U. S. Bureau of Public Roads. During the progress of construction and until the audit of Santa Fe's records has been completed, the records and the accounts pertaining to the construction of this project shall be available for inspection by the representatives of State and the U. S. Bureau of Public Roads. The final billing shall show the description and site of the project, the Federal-aid project number, the date on which the first work was performed or on which the earliest item of billed expense was incurred, the date on which the last work was performed or the last item billed expense was incurred, and the location where the records and accounts of the costs billed can be audited. Santa Fe shall make adequate reference in the billing to its records, accounts, and other relevant documents.

6.11 After State and the U.S. Bureau of Public Roads have examined, audited, and approved the final bill, State shall reimburse Santa Fe for the retained percentage, less the deduction of any item (or items) of expense found by either State or the U. S. Bureau of Public Roads not to comply with the provisions of the aforementioned "Policy and Procedure Memorandum 30-3".

Section 7: Operations of State's Contractor.

7.1 Santa Fe hereby agrees to permit State's Contractor (or Contractors) to perform all of the items of work enumerated in Section 5.1 herein, at no expense to Santa Fe, as shown on the aforementioned Exhibit "A", and in accordance with the provisions of this Section and of Section 5 hereinabove.

7.2 State shall require its Contractor (or Contractors) to consider the safety and continuity of Santa Fe's traffic operations to be of first importance and to be protected and safeguarded at all times. State shall further require its Contractor (or Contractors) to maintain the clearances stipulated in the aforementioned Exhibit "B" at all times and to otherwise conduct his (or their) operations upon Santa Fe's aforementioned right-of-way in full compliance with Santa Fe's rules, regulations, and requirements.

7.3 State shall require its Contractor (or Contractors) to give written notice to the Division Superintendent of Santa Fe, located at the Terminal Building, Corwith Yard, 3611 W. 38th Street, Chicago 32, Illinois, at least ten days prior to the commencement of his (or their) operations on Santa Fe's right-of-way or in the vicinity of Santa Fe's tracks and operating facilities.

7.4 Whenever such work, in the opinion of Santa Fe's Chief Engineer or his duly authorized representative, may affect the safety of trains and the continuity of Santa Fe's operations, the method of doing such work shall first be submitted to Santa Fe's Chief Engineer for his approval, which shall not be unreasonably withheld or delayed, and without which the work shall not be commenced or prosecuted. The approval of Santa Fe's Chief Engineer shall not be considered as a release of Santa Fe's Contractor, his sub-contractors, or his or their employees from responsibility or liability for any claims against Santa Fe or for any damage which Santa Fe may suffer.

7.5 In the event that Santa Fe's Chief Engineer shall deem any of the work or operations of State or State's Contractor (or Contractors) hazardous to Santa Fe's operation, State shall suspend, or cause its Contractor (or Contractors) to suspend, such work, until reasonable remedies are made to the satisfaction of Santa Fe's Chief Engineer or his duly authorized representative and at State's expense.

7.6 Santa Fe shall have the right at all times to have a reasonable force of inspectors at the site of the work to be performed under this Agreement. Santa Fe shall also have the right to check the shop plans incidental to the fabrication of the steelwork for the aforementioned grade separation structure. The cost of providing such inspection shall be reimbursed to Santa Fe, as provided in Section 6 of this Agreement.

Section 8: Insurance.

8.1 Before the commencement of any work under this Agreement, State shall require its Contractor (or Contractors) to produce insurance in accordance with the provisions of the United States Department of Commerce, Bureau of Public Roads' "Policy and Procedure Memorandum 20-11", entitled "Railway-Highway Insurance Protection Required of Contractors", and dated March 5, 1959. Such insurance shall be in the form and amounts set forth in the aforementioned Exhibit "B", which will protect and save harmless Santa Fe and State as stated therein, with the exception that the limits of both the public liability and property damage insurance coverage for any one accident shall be increased from the Five Hundred Thousand Dollars ($500,000.00) specified in Section 1, 2 and 3 of the "Insurance Requirements for Railroad-Highway Grade Separations" on pages 2 and 3 of the aforementioned Exhibit "B" to Three Million Dollars ($3,000,000.00) for this project. Such insurance shall remain in full force and effect during the period of construction and until completion of, and acceptance of, the work by the parties hereto and thereafter as respects occurrences and losses which are caused or occur within the period aforementioned.

8.2 Santa Fe agrees to indemnify State against, and save it harmless from loss of, or damage to, property and injury to, or death of, any person or persons and from court costs, attorney's fees, and expenses incidental thereto, resulting from the work to be performed hereunder by Santa Fe, and caused by the sole negligence of Santa Fe, its Contractor (or Contractors), or its or their respective officers, agents, or employees.

Section 9: Cleaning and Restoration of Santa Fe's Right of Way.

9.1 Upon final completion of work by State's Contractor (or Contractors), State shall require its Contractor (or Contractors) to remove all machinery, equipment, surplus material, falsework, rub-

bish, or temporary buildings of such Contractor (or Contractors) from within the limits of Santa Fe's aforementioned right of way and to leave such right of way in a condition satisfactory to Santa Fe's Chief Engineer; provided, however, that if this provision has not been complied with within 90 days after final completion of work, Santa Fe may undertake said restoration at the expense of State.

Section 10: Maintenance.

10.1 After the completion of the construction of the aforementioned Southwest Expressway - S. Cicero Avenue Interchange, the aforementioned reconstruction of S. Cicero Avenue and Santa Fe's highway underpass grade separation at that location, and the final, permanent relocation of Santa Fe's tracks, signals, communications, and other operating facilities, State and Santa Fe shall, jointly maintain the reconstructed grade separation structure. Santa Fe shall, at its own cost and expense, maintain, repair, and renew the aforesaid tracks, including the ties, rail, rail fastenings, and ballast therefor; signals, communications, and all other of its facilities constructed and changed by it under the terms of this Agreement. The expense of maintenance of the reconstructed grade separation structure shall be divided 25 percent to the Santa Fe and 75 percent to the State. The responsibility for actual performance of maintenance shall be a matter of mutual agreement and understanding at the time such maintenance work has been agreed upon as necessary. Billing for proportionate shares of such cost shall be made in the manner usually employed by the agency performing the actual maintenance work.

10.2 Santa Fe shall not enter upon the Expressway right-of-way to perform any maintenance operations, except only in the event of an emergency, whereby the access off of S. Cicero Avenue, provided in Section 1.3 of this Agreement, would be either obstructed or insufficient. In such event, Santa Fe or its Agent (or Agents) would be permitted access off the Expressway, after first notifying State's District Engineer, Room 1020, 160 N. LaSalle Street, Chicago 1, Illinois, who will then provide, at the sole cost and expense of State, the necessary procedures for Railroad's emergency maintenance operations on Expressway right-of-way and protection for Expressway traffic during such emergency operations. In no event, shall the vehicles of Santa Fe personnel or Santa Fe equipment be parked on Expressway right-of-way.

10.3 Prior to performing any maintenance operations which might encroach upon the S. Cicero Avenue right-of-way or decrease the S. Cicero Avenue clearances, Santa Fe shall first obtain permission from State to enter upon the S. Cicero Avenue right-of-way for this purpose.

Section 11: Display of Advertising Matter in Vicinity of Expressway.

11.1 Santa Fe's symbol, emblem, and name may be displayed on the railroad-highway grade separation structure, in the form of either signs, plaques, medallions, or inscriptions painted directly upon the overhead girders thereon, provided said identifying mark of Santa Fe is sufficiently small to serve for informational purposes rather than for advertisement. Such identifying mark of Santa Fe shall conform with the provisions of Section 21 of the United States Department of Commerce, Bureau of Public Roads' "Policy and Procedure Memorandum 21-10", entitled "Elimination of Hazards of Railway-Highway Crossings" and dated October 3, 1958, with subsequent amendments thereto.

Section 12: Approval of the U. S. Bureau of Public Roads and the Illinois Commerce Commission.

12.1 This Agreement shall not be binding upon the parties hereto until the U. S. Bureau of Public Roads has approved same and the Illinois Commerce Commission has entered an order approving same and both of these agencies have authorized the work herein described to be done under the terms herein set forth.

Section 13: Execution of Agreement.

13.1 This Agreement shall be binding upon and inure to the benefit of the parties hereto, their successors and assigns.

13.2 Pursuant to the execution of this Agreement by all of the parties hereto, City shall enact an Ordinance, acceptable to Santa Fe which will permit the work described herein and which will completely supercede all of the S. Cicero Avenue provisions of the aforementioned City Ordinance of July 15, 1925, and which will comply with the provision of Section 1.1 hereof.

Section 14: Termination of Agreement.

14.1 In the event of delays or difficulties in: (1) obtaining the necessary approval of the U. S. Bureau of Public Roads, (2) acquiring rights-of-way, or (3) settling damage claims, which delays make it impractical to proceed with the aforementioned project, then at any time prior to the awarding by State of a contract for the construction of this project or the start of actual construction pursuant to approval by the U. S. Bureau of Public Roads, State may serve formal notice to Santa Fe and City of the cancellation of this Agreement, which shall thereupon become null and void.

14.2 Upon receiving formal notice from State Cancelling this Agreement, Santa Fe shall prepare and submit to State a bill for all expense incurred by Santa Fe in connection with this project. After State has reviewed such bill, the approved amount thereof shall be promptly reimbursed to Santa Fe.

In Witness Whereof, the parties have caused this Agreement to be executed on the date and year first above written by their proper officers thereunto duly authorized.

[Signature and acknowledgment forms and Exhibits omitted.]

Pulaski Road is amended to comply with Section 10 of both agreements which are included in Section 1, above, of this ordinance, after the reconstruction of said structures.

B. The perpetual right and easement granted by the Santa Fe Company as provided in Section 20 (a) of said ordinance for the extension of S. SECTION 5. Agreement

Southwest Expressway — F.A.I. Route 55
F.A. Project I-55-7(36)-282, Section 1213-621 HB
Gulf, Mobile and Ohio Railroad Company.

This Agreement, made and entered into this .....day of....., A.D. 1963, by and between the State of Illinois, acting by and through its Department of Public Works and Buildings, Division of Highways, hereinafter referred to as "State", and the City of Chicago, a municipal corporation of the State of Illinois, hereinafter called "City", as Parties of the First Part, and the Gulf, Mobile and Ohio Railroad Company, a consolidated railroad corporation of Mississippi, Tennessee, and Alabama, and duly authorized to do business in the State of Illinois, formerly known as the Chicago and Alton Railroad Company, hereinafter referred to as "Railroad", Party of the Second Part;

Witnesseth:

Whereas, State, City, and the County of Cook are engaged in the construction and financing of the Southwest Route of the Comprehensive Superhighway System of the City of Chicago, which Southwest Route is part of the Southwest Expressway and is shown on the general plans and drawings of

an ordinance passed by the City Council of City on July 11, 1957, as amended; and

Whereas, State proposes to construct the Southwest Expressway within the limits of the Illinois and Michigan Canal Reserve, from S. California Avenue to S. LaCrosse Avenue, in the City of Chicago, County of Cook; and

Whereas, State, the County of Cook, a political subdivision of the State of Illinois, and Railroad recently entered into a "Use Division Line" agreement to satisfy overlapping claims by State and Railroad to portions of the South Reserve of the Illinois and Michigan Canal within the aforesaid limits; and

Whereas, the aforesaid "Use Division Line" Agreement created a division of the said South Reserve, whereby that Northerly portion of the South Reserve to be used by State for highway purposes was separated from that Southerly portion of the South Reserve to be used by Railroad for its purposes; and

Whereas, the aforesaid "Use Division Line" Agreement provides for both the temporary and permanent relocation by Railroad, at the cost and expense of State, of the pole line of The Western Union Telegraph Company, and the communications and signal circuit wires of Western Union and Railroad carried thereon, within the aforesaid Expressway construction limits; and

Whereas, the aforesaid "Use Division Line" Agreement also provides for the permanent installation by Railroad, at the cost and expense of State, of inner guard rails in Railroad's Southbound Main Track at locations necessary to prevent derailed trains from fouling the aforesaid Northerly portion of the South Reserve and endangering the property and lives of the highway users thereon, within the aforesaid Expressway construction limits; and

Whereas, the Illinois Commerce Commission entered an order on June 22, 1926, in response to a petition by City, whereby: (a) City and Railroad were to construct a viaduct in S. Crawford Avenue, now known as S. Pulaski Road, across Railroad's right-of-way, in conformance with the Commission's rules, regulations, and orders pertaining to clearances between the tracks of a railroad and a viaduct over same; (b) City and Railroad were each obligated to pay one-half of the cost of that portion of the viaduct located over Railroad's right-of-way, and (c) Railroad was to grant City all necessary rights and easements covering the occupancy of such portions of Railroad's right-of-way as necessary for the location, construction, and erection of posts, pillars, columns, or other suitable substructure necessary to support that part of the viaduct located over Railroad's right-of-way; and

Whereas, the City Council of City enacted an ordinance on June 6, 1928 authorizing City's Commissioner of Public Works to enter into a contract with Railroad for the construction by Railroad of the aforesaid viaduct over Railroad's right-of-way, in conformance with the aforementioned Illinois Commerce Commission order and the S. Crawford Avenue Improvement being constructed by The Metropolitan Sanitary District of Greater Chicago and subject to the supervision and approval of City's Commissioner of Public Works; and

Whereas, pursuant to the passage of the aforesaid City ordinance, City's Commissioner of Public Works entered into the aforesaid contract with Railroad on March 31, 1930, said contract being designated Contract No. 4696; and

Whereas, the aforesaid Expressway construction will include an interchange connection with S. Pulaski Road, which is within the aforesaid construction limits; and

Whereas, the aforesaid interchange connection will necessitate the widening and reconstruction of the existing concrete and steel viaduct carrying S. Pulaski Road over and across the Chicago Sanitary Drainage and Ship Canal, the right-of-way and Main Line and Nerska Yard tracks of The Atchison, Topeka and Santa Fe Railway Company, the aforesaid Illinois and Michigan Canal and North and South Reserves thereof, and the right-of-way and main and side tracks of Railroad; and

Whereas, Railroad now operates at grade on the aforesaid modified right-of-way, South of the aforesaid "Use Division Line", which modified right-of-way and Railroad's tracks, signal and communications lines, and other operating facilities thereon are spanned by the aforesaid S. Pulaski Road Viaduct; and

Whereas, upon completion of the construction contemplated by this Agreement, the maintenance of the S. Pulaski Road Viaduct will become the responsibility of City, as expressed herein; and

Whereas, in the interest of public safety, convenience, and necessity, the parties hereto propose to continue the separation of grades at the intersection of S. Pulaski Road and the tracks and modified right-of-way of Railroad by reconstructing a viaduct as aforesaid, at the above described location; and

Whereas, the aforesaid project is to be financed, in part, by the use of funds appropriated by the Federal Government;

Now, Therefore, in consideration of the premises and of the mutual promises hereinafter contained, the parties hereto agree as follows:

Section 1: Grant of Easement by Railroad.

Railroad hereby grants to State the right to construct, reconstruct, use, and occupy, in perpetuity for highway purposes, the aforesaid reconstructed S. Pulaski Road Viaduct over and across the aforesaid modified right-of-way of Railroad, in conformance with Exhibit "A", entitled "Southwest Expressway—Pulaski Road Bridge", attached hereto and made a part hereof.

Railroad reserves the right unto itself, its successors, assigns, grantees, lessees, and licensees to use its modified right-of-way for any and all purposes whatsoever; provided, however, that such use or uses shall not substantially interfere with, substantially reduce, nor substantially curtail in any way the aforesaid grant.

Section 2: Engineering Work by State.

State shall, at its own expense, prepare preliminary and final detail plans, field surveys, estimates of cost, specifications, proposal forms, and necessary special provisions for the reconstruction of the aforesaid S. Pulaski Road Viaduct.

All such plants, specifications, special provisions, and construction procedures as will affect the operation of Railroad's trains and facilities shall be subject to approval by Railroad.

Section 3: Engineering Work by Railroad.

State shall reimburse Railroad for the preliminary engineering costs incurred by Railroad in the preparation of preliminary and detail plans, estimates, and specifications for any necessary Railroad Force Account Work, as described in Section 6 herein, except where provision has already been made for same in the aforementioned "Use Division Line" Agreement, and in the review of this

Agreement and State's preliminary and final detail plans, specifications, proposal forms, and special provisions for the aforesaid reconstruction of the S. Pulaski Road Viaduct and appurtenances thereto.

Section 4: Construction Documents.

No changes shall be made in any approved plans, specifications, or special provisions by either party hereto without the written consent of the other party hereto.

State will furnish Railroad prints of any State's plans, specifications, and special provisions which might assist Railroad in the performance of its force account work. Upon the completion of the construction proposed by this Agreement, and if so requested by Railroad, State will furnish Railroad reproduced tracings of such "as-built" plans, specifications, and special provisions as pertain to its facilities.

Section 5: Construction Work by State.

State agrees to furnish, or caused to be furnished, at no expense to Railroad, all the labor, materials, work, and equipment required to perform and complete the widening and reconstruction of the aforesaid viaduct and appurtenances thereto, together with the construction of all other highway facilities over the tracks and across the modified right-of-way of Railroad, in accordance with the aforementioned plans, specifications, and special provisions therefor, to be approved as aforesaid, all of which is shown on the aforementioned Exhibit "A".

All work affecting Railroad's facilities and operations shall be awarded by State to a competent Contractor (or Contractors) experienced in such work and having adequate equipment, organization, and finances to do the work safely and effectively. All such awards affecting Railroad's interests shall be subject to Railroad's approval.

State shall require its Contractor (or Contractors) to assume and bear the cost of all protective measures which Railroad may deem necessary to safeguard Railroad's employees, tracks, trains, and other property or facilities, as adopted and agreed upon at the conference hereinafter provided for, or as otherwise seen fit to protect Railroad's operations made necessary by construction methods employed by State's Contractor (or Contractors). Flagmen shall be provided to protect Railroad's tracks, trains, and traffic, in accordance with the requirements set forth in Article 7.13 of State's "Standard Specifications for Road and Bridge Construction", as adopted January 2, 1958; State's "Supplemental Specifications", effective April 2, 1962; The United States Department of Commerce, Bureau of Public Roads' Policy and Procedure Memorandums 30-3 (4) and 21-10 (5), respectively entitled "Reimbursement for Railroad Work" and "Elimination of Hazards of Railway-Highway Crossings", and both dated January 16, 1961, and State's "Special Provisions for Protection of Railroad Traffic and Property due to the Contractor's Construction Operations", effective July 2, 1962. The aforesaid Special Provisions are designated Exhibit "B", are attached hereto and made a part hereof, and will be included in State's contract proposals for the reconstruction and widening of the aforementioned viaduct.

State shall require its Contractor (or Contractors) to reimburse Railroad for its actual cost of the aforesaid protective measures promptly upon the receipt of bills for same. State agrees to withhold final payment to its Contractor (or Contractors) until Railroad has notified State that all such bills have been paid.

After the award of any contract or contracts contemplated by this Agreement, and before work is started on this project, a conference shall be held between State, City, U. S. Bureau of Public Roads, Railroad, and the Contractor (or Contractors), at a time and place to be designated by State, for the purpose of coordinating the work to be performed. At this meeting, a tentative schedule of operations shall be adopted and measures agreed upon to meet Railroad's requirements for the maintenance of its clearances, the protection of its operations, and additional safety regulations. Additional conferences will be held as the work progresses and the need arises.

Section 6: Railroad Force Account Work and Billing.

Railroad agrees to make, at the expense of State, such temporary and permanent changes in its tracks, signal and communications systems, and other operating facilities as may be necessitated by the construction of the aforementioned highway improvement, except such changes separately stipulated in the aforementioned "Use Division Line" Agreement.

The aforesaid Railroad Force Account Work in connection with the subject project is shown on Exhibit "C", a plan prepared by Railroad, entitled "G.M. & O. R.R. Force Account Work—Southwest Expressway—Pulaski Rd. Overhead", dated October 26, 1962, designated SD-250A-71 SK, and attached hereto and made a part hereof. Railroad estimates the total cost of these changes to be $33,567.00, as shown on Exhibit "D", an estimate of cost of material and force account work, prepared by Railroad, dated October 31 and December 4, 1962, and attached hereto and made a part hereof. This sum has been computed on the basis of the cost of materials and labor rates in effect on the date of said estimate and does not include Railroad Force Account Work separately stipulated in the aforementioned "Use Division Line" Agreement.

In the event of any changes in State's plans, specifications, or special provisions, Railroad shall submit a revised estimate of cost to State for its approval, prior to the commencement of the work involved. State shall promptly approve such revised estimate, if it complies with the provisions of this Section. In the event of emergency work necessary to safeguard and maintain operation of Railroad's traffic and trains during the construction of this improvement, a revised estimate including the cost of doing this additional work shall be prepared by Railroad and submitted to State promptly after such work has been done.

State shall reimburse Railroad for any additional expense, other than that shown on Exhibit "D", which might be necessitated by a change in plans, specifications, or special provisions, in accordance with Section 4 hereof, or by the aforementioned emergency work. This reimbursement shall be made at the same unit costs for material and rates for labor as are reflected in Exhibit "D", subject to the "escalator" provisions of this Section. The billing for this additional material and labor shall be made in accordance with the provisions contained in this Section.

It is further understood that if, as of the time the work is performed by Railroad, the material costs and labor rates are greater than those in effect on the date of the aforementioned Exhibit "D", the total estimated cost shown on said Exhibit "D" shall be increased by an amount or amounts corresponding to the increase in the material costs and labor rates; provided, however, that the increase in

the cost of material and labor shall not have been caused by any unreasonable delay of Railroad in the performance of its work hereunder.

In the interest of safety and continuity in Railroad's operations, during the work by State's Contractor (or Contractors) described in the preceding Section 5 of this Agreement, Railroad agrees to furnish the necessary preliminary and construction engineering and inspection for such work it considers might affect its properties and facilities or the safety and continuity of the operation of its trains and protective services necessitated by the operations of State's Contractor (or Contractors) on this project. The engineering and inspection services will be furnished by Railroad at State's expense. The protective services will be furnished by Railroad at the expense of State's Contractor (or Contractors), who will reimburse Railroad for these services in accordance with the provisions of the preceding Section 5 of this Agreement.

Railroad shall submit to State a monthly statement, in sets of ten (10) each, of all the actual cost and expense incurred by it, or for its account performed at the expense of State, in accordance with the aforementioned provisions of this Section. After State has checked these statements and has found them to be correct, State shall reimburse Railroad within thirty (30) days of receipt of bills for ninety-five percent (95%) of the amount thereof. Such reimbursement, however, will be audited by State each six (6) months and will further be subject to the requirement that all expense billed to State must be for charges allowable under the provisions of the United States Department of Commerce, Bureau of Public Roads' "Policy and Procedure Memorandum 30-3", entitled, "Reimbursement for Railroad Work", and dated August 15, 1955, with subsequent amendments thereto.

Railroad shall furnish State a statement of the actual labor performed on this Project, in the form and manner as may be required by State, and in accordance with the provisions of the aforementioned "Policy and Procedure Memorandum 30-3" and amendments thereto.

All of Railroad's cost records and accounts relating to this project are subject to audit by representatives of State and/or the U. S. Bureau of Public Roads. During the progress of construction and until the audit of Railroad's records has been completed, the records and the accounts pertaining to the construction of the project shall be available for inspection by the representatives of State and the U. S. Bureau of Public Roads. The final billing shall show the description and site of the project, the Federal-aid project number, the date on which the first work was performed, or on which the earliest item of billed expense was incurred, the date on which the last work was performed or the last item of billed expense was incurred, and the location where the records and accounts of the costs billed can be audited. Railroad shall make adequate reference in the billing to its records, accounts and other relevant documents.

After State and the U. S. Bureau of Public Roads have examined, audited, and approved the final bill, State shall reimburse Railroad for the retained percentage, less the deduction of any item (or items) of expense not found allowable by either State or the U. S. Bureau of Public Roads.

If any of the work to be done by Railroad should conflict with any contract or agreement than existing between Railroad and any other party or parties who is, or are, not a party or parties to this Agreement, then Railroad shall make whatever arrangement may be necessary with such other party or parties to eliminate such conflict.

Section 7: Operations of State's Contractor.

Railroad hereby agrees to permit State's Contractor (or Contractors) to perform all of the items of work enumerated in Section 5 herein, as shown on the aforementioned Exhibit "A", and in accordance with the provisions of this Section and of Section 5 hereinabove.

State shall require its Contractor (or Contractors) to consider the safety and continuity of Railroad's traffic operations to be of first importance and to be protected and safeguarded at all times. State shall further require its Contractor (or Contractors) to maintain the clearances stipulated in the aforementioned Exhibit "B" at all times and to otherwise conduct his (or their) operations upon Railroad's aforementioned modified right-of-way in full compliance with Railroad's rules, regulations, and operating requirements.

State shall require its Contractor (or Contractors) to give written notice to Railroad's Superintendent of Terminals, located at 3710 S. California Avenue, Chicago 32, Illinois, at least forty-eight (48) hours prior to the commencement of his (or their) operations on Railroad's modified right-of-way or in the vicinity of Railroad's tracks and operating facilities.

Whenever such work, in the opinion of Railroad's Superintendent of Terminals, or his duly authorized representative, may affect the safety of trains and the continuity of Railroad's operations, the method of doing such work shall first be submitted to Railroad's Superintendent of Terminals for his approval, which shall not be unreasonably withheld or delayed, and without which the work shall not be commenced or prosecuted.

The approval of Railroad's Superintendent of Terminals shall not be considered as a release from responsibility or liability for any damage which Railroad may suffer, or for which it may be held liable by the acts of State's Contractor, his sub-contractor, of his or their employees.

In the event that Railroad's Superintendent of Terminals shall deem any of the work or operations of State or State's Contractor (or Contractors) hazardous to Railroad's operations, State shall suspend, or cause its Contractor (or Contractors) to suspend, such work, until remedial measures, satisfactory to Railroad's Superintendent of Terminals or his duly authorized representative, are taken.

Railroad shall have the right at all times to have a reasonable force of inspectors at the site of the work to be performed under this Agreement. The cost of providing such inspection shall be reimbursed to Railroad, as provided in Section 6 of this Agreement.

Section 8: Insurance.

Before the commencement of any work under this Agreement, State shall require its Contractor (or Contractors) to procure insurance in accordance with the provisions of the United States Department of Commerce, Bureau of Public Roads' "Policy and Procedure Memorandum 20-12", entitled "Railway-Highway Insurance Protection Required of Contractors", and dated March 5, 1959. Such insurance shall be in the form and amounts set forth in the aforementioned Exhibit "B", which will protect and save harmless Railroad and State as stated therein. Such insurance shall remain in full force and effect during the period of construction and until completion of, and acceptance of, the work by the parties hereto and thereafter as respects

occurrences and losses which are caused or occur within the period aforementioned.

Railroad agrees to indemnify State against, and save it harmless from, loss of, or damage to, property and injury to, or death of, any person or persons and from court costs, attorney's fees, and expenses incidental thereto, resulting from the work to be performed hereunder by Railroad, and caused by the sole negligence of Railroad, its Contractor (or Contractors) or its or their respective officers, agents, or employees.

Section 9: Cleaning and Restoration.

Upon final completion of the work by State's Contractor (or Contractors), State shall require its Contractor (or Contractors) to remove all machinery, equipment, surplus material, falsework, rubbish, or temporary buildings of such Contractor (or Contractors) from the area South of the aforementioned "Use Division Line" and to leave such area in a condition satisfactory to Railroad.

Section 10: Maintenance.

After the widening and reconstruction of the S. Pulaski Road Viaduct, as described herein, has been completed, City shall, at its own cost and expense, maintain, repair, and renew the viaduct which is over the Railroad's modified right-of-way and tracks.

All cost of protecting and maintaining Railroad's traffic during the aforesaid maintenance, repair, and renewal shall be borne by City.

In the event of damage to the aforesaid reconstructed viaduct resulting from accidents attributed solely to negligence in Railroad's operations, Railroad shall, at its own cost and expense, make the repairs necessary to restore said structure substantially to its former condition.

Railroad shall, at its own cost and expense, maintain, repair, and renew, or cause same to be done, its tracks, signals, communications, and all other of its facilities which may have been constructed, altered, relocated, or otherwise changed under the terms of this Agreement.

Section 11: Approval of the U. S. Bureau of Public Roads and the Illinois Commerce Commission.

This Agreement shall not be binding upon the parties hereto until the United States Bureau of Public Roads has approved same and the Illinois Commerce Commission has entered an order approving same and both of these agencies have authorized the work herein described to be done under the terms herein set forth.

Section 12: Execution of Agreement.

This Agreement shall be binding upon and inure to the benefit of the parties hereto, their successors and assigns.

Pursuant to the execution of this Agreement by all of the Parties hereto, City shall enact an Ordinance, duly passed by its City Council, which will permit the work described herein and which will nullify and void certain conflicting requirements imposed upon Railroad by the aforementioned City Ordinance of June 6, 1928.

Section 13: Termination of Agreement.

In the event of delays or difficulties in: (1) obtaining the necessary approvals of the United States Bureau of Public Roads, (2) acquiring rights-of-way, or (3) settling damage claims, which delays make it impractical to proceed with the aforementioned project, then at any time prior to the awarding by State of a contract for the construction of this project or the start of actual construction pursuant to approval by the U. S. Bureau of Public Roads, State may serve formal notice to Railroad and City of the cancellation of this Agreement, which shall thereupon become null and void.

Upon receiving formal notice from State cancelling this Agreement, Railroad shall prepare and submit to State a bill for all preliminary engineering and railroad force account expense incurred by Railroad in connection with this project up to the time of the aforesaid formal notice. After State has reviewed such bill, the approved amount thereof shall be promptly reimbursed to Railroad.

In Witness Whereof, the parties hereto have caused this Agreement to be executed on the date and year first above written by their proper officers thereunto duly authorized.

Agreement

Southwest Expressway—F.A.I. Route 55
F.A. Project IG-55-7 (68)-281, Section 1112-671 SB
Gulf, Mobile and Ohio Railroad Company.

This Agreement, made and entered into this ..... day of ....., A.D. 1963, by and between the State of Illinois, acting by and through its Department of Public Works and Buildings, Division of Highways, hereinafter referred to as "State," and the City of Chicago, a municipal corporation of the State of Illinois, hereinafter called "City," as parties of the First Part, and the Gulf, Mobile and Ohio Railroad Company, a consolidated railroad corporation of Mississippi, Tennessee, and Alabama, and duly authorized to do business in the State of Illinois, formerly known as the Chicago and Alton Railroad Company, hereinafter referred to as "Railroad," Party of the Second Part;

Witnesseth:

Whereas, State, City, and the County of Cook are engaged in the construction and financing of the Southwest Route of the Comprehensive Superhighway System of the City of Chicago, which Southwest Route is part of the Southwest Expressway and is shown on the general plans and drawings of an ordinance passed by the City Council of City of July 11, 1957, as amended; and

Whereas, State proposes to construct the Southwest Expressway within the limits of the Illinois and Michigan Canal Reserve, from S. California Avenue to S. LaCrosse Avenue, in the City of Chicago, County of Cook; and

Whereas, State, the County of Cook, a political subdivision of the State of Illinois, and Railroad, recently entered into a "Use Division Line" Agreement to satisfy overlapping claims by State and Railroad to portions of the South Reserve of the Illinois and Michigan Canal within the aforesaid limits; and

Whereas, the aforesaid "Use Division Line" Agreement created a division of the said South Reserve, whereby that Northerly portion of the South Reserve to be used by State for highway purposes was separated from the Southerly portion of the South Reserve to be used by Railroad for its purposes; and

Whereas, the aforesaid "Use Division Line" Agreement provides for both the temporary and permanent relocation by Railroad, at the cost and expense of State, of the pole line of The Western Union Telegraph Company, and the communications and signal circuit wires of Western Union and Railroad carried thereon, within the aforesaid Expressway construction limits; and

Whereas, the aforesaid "Use Division Line" Agreement also provides for the permanent installation by Railroad, at the cost and expense of State,

of inner guard rails in Railroad's Southbound Main Track at locations necessary to prevent derailed trains from fouling the aforesaid Northerly portion of the South Reserve and endangering the property and lives of the highway users thereon, within the aforesaid Expressway construction limits; and

Whereas, in response to a hearing on a petition by City, Case No. 16446, the Illinois Commerce Commission entered an Order on June 22, 1926, whereby: (a) City and Railroad were required to proceed with the construction of a "Subway" (railroad overpass-highway underpass grade separation structure) in S. Cicero Avenue beneath Railroad's right of way and tracks, in accordance with the Commission's general rules, regulations, and orders concerning clearances where a roadway passes beneath the tracks of a Railroad Company; (b) City and Railroad were each required to pay one-half of the cost of such part of the aforesaid subway as located beneath Railroad's right of way and the South approach thereto, including raising Railroad's tracks over S. Cicero Avenue; (c) Railroad granted City all necessary rights and easements for the construction of said subway; and (d) Railroad was not obligated to pay for the cost of any street improvements on S. Cicero Avenue; and

Whereas, the City Council of City passed an Ordinance on July 22, 1926, whereby (a) City's Commissioner of Public Works was authorized to enter into a contract with Railroad for the construction of the aforesaid subway in S. Cicero Avenue by Railroad, subject to the supervision and approval of City's Commissioner of Public Works, and in accordance with the provisions of the aforesaid Illinois Commerce Commission Order of June 22, 1926; and

Whereas, Railroad now operates on unretained fill and over an existing five (5) span, 112'-0" I-Beam bridge with concrete abutments, steel piers, and concrete parapets, which bridge carries Railroad's two (2) mainline tracks over and across S. Cicero Avenue, South of the aforesaid "Use Division Line"; and

Whereas, the aforesaid Expressway construction will include an interchange connection with S. Cicero Avenue, near the West end of the aforesaid construction limits; and

Whereas, the aforesaid interchange connection will necessitate the reconstruction of S. Cicero Avenue, which reconstruction in turn will necessitate the reconstruction of the aforesaid existing highway underpass grade separation structure, which carries the tracks, signal and communications lines, and other operating facilities of Railroad over and across S. Cicero Avenue; and

Whereas, upon completion of the construction contemplated by this Agreement, the maintenance of the new highway underpass grade separation structure will become the joint responsibility of Railroad and State, and the maintenance of all highway facilities will become the responsibility of State, as expressed herein; and

Whereas, in the interest of public safety, convenience, and necessity, the parties hereto propose to continue the separation of grades at the intersection of S. Cicero Avenue and Railroad's tracks and right of way as modified by the aforesaid "Use Division Line" Agreement, by reconstructing a grade separation structure as aforesaid at the above described location; and

Whereas, the aforementioned reconstructed grade separation structure will be one of the locations requiring the aforementioned inner guard rails in Railroad's Southbound Main Track, as provided in the aforementioned "Use Division Line" Agreement; and

Whereas, this project is to be financed, in part, by the use of funds appropriated by the Federal Government, which requires the computations of cost and expense, except as hereinafter provided, to be in accordance with the United States Department of Commerce, Bureau of Public Roads' "Policy and Procedure Memorandum 30-3", entitled "Reimbursement for Railroad Work", and dated August 15, 1955, with subsequent amendments thereto; and

Whereas, the aforesaid modified right-of-way, lying in, and South of, the aforesaid Southerly portion of the South Reserve, and upon which the tracks, signal and communications lines, and other operating facilties of Railroad are situated, is owned by Railroad;

Now, Therefore, in consideration of the premises and of the mutual promises hereinafter contained, the parties hereto agree as follows:

Section 1: Grant of Easement by Railroad. Railroad hereby grants to State the right to construct, reconstruct, use, occupy, repair, maintain, and operate, in perpetuity for highway purposes, the aforesaid reconstructed S. Cicero Avenue under and across the aforesaid modified right of way of Railroad, in conformance with Exhibit "A", entitled "Southwest Expressway-G. M. & O. R. R. -S. Cicero Avenue Underpass Structure", attached hereto and made a part hereof.

Railroad reserves the right unto itself, its successors, assigns, grantees, lessees, and licensees to use its modified right-of-way for any and all purposes whatsoever; provided, however, that such use or uses shall not substantially interfere with, substantially reduce, or substantially curtail in any way the aforesaid grant.

Section 2: Engineering Work by State. State shall, at its own expense, prepare preliminary and final detailed plans, field surveys, estimates of cost, specifications, proposal forms, and necessary special provisions for the construction of the aforesaid Southwest Expressway and S. Cicero Avenue interchange connection, the aforesaid reconstruction of S. Cicero Avenue and Railroad's S. Cicero Avenue Highway Underpass Grade Separation Structure and Substructure, including the temporary detour bridge therefor, and the construction of highway drainage structures, highway operating facilities, and other highway appurtenances. All such plans, specifications, special provisions, and construction procedures as will affect the operation of Railroad's trains and facilities shall be subject to approval by Railroad.

Section 3: Engineering Work by Railroad. State shall reimburse Railroad for preliminary engineering costs incurred by Railroad in the preparation of the preliminary and detail plans, estimates, and specifications for both the temporary and permanent relocation of Railroad's tracks, signals, communications, and other operating facilities, except where provision has already been made for same in the aforementioned "Use Division Line" Agreement, and in the review of this Agreement, State's preliminary and final detail plans, specifications, proposal forms, and special provisions for the construction of the aforementioned Southwest Expressway and S. Cicero Avenue Interchange connection, the reconstruction of S. Cicero Avenue and Railroad's Underpass Grade Separation Structure and Substructure and temporary detour bridge therefor, and the construction of the highway drainage

structures, operating facilities, and other appurtenances.

Section 4: Construction Documents. No changes shall be made in any approved plans, specifications, or special provisions by either party hereto without the written consent of the other party hereto.

State will furnish Railroad prints of any of State's plans, specifications, and special provisions which might assist Railroad in the performance of its force account work. Upon the completion of the construction proposed by this Agreement, and upon receipt of request from Railroad for same, State will furnish Railroad reproduced tracings of such "as-built" plans, specifications, and special provisions as pertain to its facilities.

Section 5: Construction Work by State. State agrees to furnish, or cause to be furnished, at no expense to Railroad, all the labor, materials, work, and equipment required to perform and complete the following items of work:

1. Construction of Southwest Expressway and S. Cicero Avenue Interchange Connection.
2. Reconstruction of S. Cicero Avenue at its intersection with Railroad's aforementioned modified right-of-way and tracks.
3. Reconstruction of the aforementioned highway underpass grade separation, including:
   a. Construction and later removal of a double-track railroad temporary detour bridge, including those portions of the temporary detour tracks which are North of the aforementioned "Use Division Line".
   b. Construction of a new double-track railroad overpass-highway underpass grade separation structure and substructure.
   c. Removal of Railroad's existing double-track railroad overpass-highway underpass grade separation structure and substructure, designated by Railroad as Bridge No. AO-82.
4. Relocation, reconstruction, and construction of highway drainage structures, highway operating facilities, and highway appurtenances incidental to the aforesaid construction of the Southwest Expressway and S. Cicero Avenue interchange connection and reconstruction of S. Cicero Avenue and passing under and across Railroad's tracks and modified right of way.
5. Relocation of existing sewer and water lines and public and private utilities now in, along, or beneath existing S. Cicero Avenue at its intersection with Railroad's aforementioned modified right of way and tracks.

All of the above work by State shall be in accordance with the aforementioned plans, specifications, and special provisions therefor, to be approved as aforesaid, and as shown on the aforementioned Exhibit "A".

State shall arrange for the performance of the shop and mill inspection incidental to the fabrication of the steelwork for the aforesaid permanent grade separation structure.

All work affecting Railroad's facilities and operations shall be awarded by State to a competent Contractor (or Contractors) experienced in such work and having adequate equipment, organization, and finances to do the work safely and effectively. All such awards affecting Railroad's interests shall be subject to Railroad's approval.

In accordance with the provisions of Section 10 d. (10) of the aforementioned Policy and Procedure Memorandum 30-3, the material salvaged in the removal of the aforementioned existing grade separation structure and sub-structure by State's Contractor (or Sub-contractor) shall become the property of State's Contractor (or Sub-contractor, as the case may be), and this fact will be so specified by State in the special provisions to be made a part of the contract documents for the subject project, with the salvage of this material to be reflected in the prospective Contractor's bid on the item of "Removal of Existing Structures".

State shall require its Contractor (or Contractors) to assume and bear the cost of all protective measures which Railroad may deem necessary to safeguard Railroad's employees, tracks, trains, and other property or facilities, as adopted and agreed upon at the conference hereinafter provided for, or as otherwise seen fit to protect Railroad's operations made necessary by construction methods employed by State's Contractor (or Contractors). Flagmen shall be provided to protect Railroad's tracks, trains, and traffic, in accordance with the requirements set forth in Article 7.13 of State's "Standard Specifications for Road and Bridge Construction", as adopted January 2, 1958; State's "Supplemental Specifications", effective April 2, 1962; the United States Department of Commerce, Bureau of Public Roads' Policy and Procedure Memorandums 30-3(4) and 21-10(5), respectively entitled "Reimbursement for Railroad Work" and "Elimination of Hazards of Railway-Highway Crossings", and both dated January 16, 1961, and State's "Special Provisions for Protection of Railroad Traffic and Property Due to the Contractor's Construction Operation", effective July 2, 1962. The aforesaid Special Provisions are designated Exhibit "B", and are attached hereto and made a part hereof, and will be included in State's contract proposals for the reconstruction of the aforementioned highway underpass grade separation structure.

State shall require its Contractor (or Contractors) to reimburse Railroad for its actual cost of the aforesaid protective measures promptly upon the receipt of bills for same. State agrees to withhold final payment to its Contractor (or Contractors) until Railroad has notified State that all such bills have been paid.

After the award of any contract or contracts contemplated by this Agreement, and before work is started on this project, a conference shall be held between State, City, and U.S. Bureau of Public Roads, Railroad, and the Contractor (or Contractors), at a time and place to be designated by State, for the purpose of coordinating the work to be performed. At this meeting, a tentative schedule of operations shall be adopted and measures agreed upon to meet Railroad's requirements for the maintenance of its clearances, the protection of its operations, and additional safety regulations. Additional conferences will be held as the work progresses and the need arises.

Section 6: Railroad Force Account Work and Billing. Railroad agrees to make, at the expense of State, such temporary and permanent changes in its tracks, signals and communications systems, and other operating facilities as may be necessitated by the construction of the aforementioned highway improvements, except such changes separately stipulated in the aforementioned "Use Division Line" Agreement and such changes as will be made by State in accordance with the preceding Section 5 of this Agreement.

Railroad further agrees to maintain, at State's

expense, the entire aforementioned temporary detour track during the period its trains are operated thereon.

Railroad estimates the total cost of the aforesaid force account work to be $94,745.69, as shown on Exhibit "C", an estimate of cost of materials and force account work, prepared by Railroad, dated January 31, 1963, and attached hereto and made a part hereof. This sum has been computed on the basis of the cost of materials and labor rates in effect on the date of said estimate and does not include Railroad Force Account Work separately stipulated in the aforementioned "Use Division Line" Agrement.

In the event of any changes in State's plans, specifications, or special provisions, Railroad shall submit a revised estimate of cost to State for its approval, prior to the commencement of the work involved. State shall promptly approve such revised estimate, if it complies with the provisions of this Section. In the event of emergency work necessary to safeguard and maintain operation of Railroad's traffic and trains during the construction of this improvement, a revised estimate including the cost of doing this additional work shall be prepared by Railroad and submitted to State promptly after such work has been done.

State shall reimburse Railroad for any additional expense, other than that shown on Exhibit "C", which might be necessitated by a change in plans, specifications, or special provisions, in accordance with Section 4 hereof, or by the aforementioned emergency work. This reimbursement shall be made at the same unit costs for material and rates for labor as are reflected in Exhibit "C", subject to the "escalator" provisions of this Section. The billing for this additional material and labor shall be made in accordance with the provisions contained in this Section.

It is further understood that if, as of the time the work is performed by Railroad, the material costs and labor rates are greater than those in effect on the date of the aforementioned Exhibit "C", the total estimated cost shown on said Exhibit "C" shall be increased by an amount or amounts corresponding to the increase in the material costs and labor rates; provided, however, that the increase in the cost of materials and labor shall not have been caused by any unreasonable delay of Railroad in the performance of its work hereunder.

In the interest of safety and continuity in Railroad's operations, during the work by State's Contractor (or Contractors) described in the preceding Section 5 of this Agreement, Railroad agrees to furnish the necessary preliminary and construction engineering and inspection for such work it considers might affect its properties and facilities or the safety and continuity of the operation of its trains and protective services necessitated by the operations of State's Contractor (or Contractors) on this project. The engineering and inspection services will be furnished by Railroad at State's expense. The protective services will be furnished by Railroad at the expense of State's Contractor (or Contractors), who will reimburse Railroad for these services in accordance with the provisions of the preceding Section 5 of this Agreement.

Railroad shall submit to State a monthly statement, in sets of ten (10) each, of all the actual cost and expense incurred by it, or for its account performed at the expense of State, in accordance with the aforementioned provisions of this Section. After State has checked such statements and has found them to be correct, State shall reimburse Railroad within (30) days of receipt of bills for ninety-five per cent (95%) of the amount thereof. Such reimbursement, however, will be audited by State each six (6) months and will further be subject to the requirement that all expense billed to State must be for charges allowable under the provisions of the aforementioned "Policy and Procedure Memorandum 30-3" and amendments thereto.

Railroad shall furnish State a statement of the actual labor performed on this Project, in the form and manner as may be required by State, and in accordance with the provisions of the aforementioned "Policy and Procedure Memorandum 30-3" and amendments thereto.

All of the Railroad's cost records and accounts relating to this project are subject to audit by representatives of State and/or the U.S. Bureau of Public Roads. During the progress of construction and until the audit of Railroad's records has been completed, the records and the accounts pertaining to the construction of the project shall be available for inspection by the representatives of State and the U.S. Bureau of Public Roads. The final billing shall show the description and site of the project, the Federal-aid project number, the date on which the first work was performed or on which the earliest item of billed expense was incurred, the date on which the last work was performed or the last item of billed expense was incurred, and the location where the records and accounts of the costs billed can be audited. Railroad shall make adequate reference in the billing to its records, accounts and other relevant documents.

After State and the U.S. Bureau of Public Roads have examined, audited, and approved the final bill, State shall reimburse Railroad for the retained percentage, less the deduction of any item (or items) of expense not found allowable by either State or the U.S. Bureau of Public Roads.

Section 7: Operations of State's Contractor.

Railroad hereby agrees to permit State's Contractor (or Contractors) to perform all of the items of work enumerated in Section 5 herein, as shown on the aforementioned Exhibit "A", and in accordance with the provisions of this Section and of Section 5 hereinabove.

State shall require its Contractor (or Contractors) to consider the safety and continuity of Railroad's traffic operations to be of first importance and to be protected and safeguarded at all times. State shall further require its Contractor (or Contractors) to maintain the clearances stipulated in the aforementioned Exhibit "B" at all times and to otherwise conduct his (or their) operations upon Railroad's aforementioned modified right of way in full compliance with Railroad's rules, regulations, and operating requirements.

State shall require its Contractor (or Contractors) to give written notice to Railroad's Superintendent of Terminals, located at 3710 S. California Avenue, Chicago 32, Illinois, at least forty-eight (48) hours prior to the commencement of his (or their) operations on Railroad's modified right of way or in the vicinity of Railroad's tracks and operating facilities.

Whenever such work, in the opinion of Railroad's Superintendent of Terminals, or his duly authorized representative, may affect the safety of trains and the continuity of Railroad's operations, the method of doing such work shall first be submitted to Railroad's Superintendent of Terminals for his approval, which shall not be unreasonably withheld, or delayed, and without which the work shall not be commenced or prosecuted.

The approval of Railroad's Superintendent of Terminals shall not be considered as a release from responsibility or liability for any damage which Railroad may suffer, or for which it may be held liable by the acts of State's Contractor, his subcontractor, or his or their employees.

In the event that Railroad's Superintendent of Terminals shall deem any of the work or operations of State or State's Contractor (or Contractors) hazardous to Railroad's operations, State shall suspend, or cause its Contractor (or Contractors) to suspend, such work until reasonably remedial measures, satisfactory to Railroad's Superintendent of Terminals or his duly authorized representative, are taken.

Railroad shall have the right at all times to have a reasonable force of inspectors at the site of the work to be performed under this Agreement. Railroad shall also have the right to check the shop plans incidental to the fabrication of the steelwork for the aforesaid grade separation structure. The cost of providing such inspection shall be reimbursed to Railroad, as provided in Section 6 of this Agreement.

Section 8: Insurance.

Before the commencement of any work under this Agreement, State shall require its Contractor (or Contractors) to procure insurance in accordance with the provisions of the United States Department of Commerce, Bureau of Public Roads' "Policy and Procedure Memorandum 20-12", entitled "Railway-Highway Insurance Protection Required of Contractors", and dated March 5, 1959. Such insurance shall be in the form and amounts set forth in the aforementioned Exhibit "B", which will protect and save harmless Railroad and State as stated therein. Such insurance shall remain in full force and effect during the period of construction and until completion of, and acceptance of, the work by the parties hereto and thereafter as respects occurrences and losses which are caused or occur within the period aforementioned.

Railroad agrees to indemnify State against, and save it harmless from, loss of, or damage to, property and injury to, or death of, any person or persons and from court costs, attorney's fees, and expenses incidental thereto, resulting from the work to be performed hereunder by Railroad, and caused by the sole negligence of Railroad, its Contractor (or Contractors), or its or their respective officers, agents, or employees.

Section 9: Cleaning and Restoration.

Upon final completion of the work by State's Contractor (or Contractors), State shall require its Contractor (or Contractors) to remove all machinery, equipment, surplus material, falsework, rubbish, or temporary buildings of such Contractor (or Contractors) from the area South of the aforementioned "Use Division Line" and to leave such area in a condition satisfactory to Railroad.

Section 10: Maintenance.

After the completion of the construction of the aforementioned Southwest Expressway - S. Cicero Avenue Interchange, the aforementioned reconstruction of S. Cicero Avenue and Railroad's highway underpass grade separation at that location, and the final, permanent relocation of Railroad's tracks, signals, communications, and other operating facilities, the State, and Railroad shall jointly maintain the reconstructed grade separation structure. Railroad shall, at its own cost and expense, maintain, repair, and renew the aforesaid tracks, including the ties, rail, rail fastenings, and ballast therefor, signals, communications, and all other of its facilities constructed and changed by it under the terms of this Agreement.

The expense of maintenance of the reconstructed grade separation shall be divided 25 percent to the Railroad and 75 percent to the State. The responsibility for actual performance of maintenance shall be a matter of mutual agreement and understanding at the time such maintenance work has been agreed upon as necessary. Billing for proportionate shares of such cost shall be made in the manner usually employed by the agency performing the actual maintenance work.

In the performance of its maintenance operations, Railroad shall gain access to areas lying Northerly of the aforementioned "Use Division Line" only from areas lying Southerly thereof, except in the event of an emergency, whereby the Southerly access would be either obstructed or insufficient. Only in such event would Railroad or its Agent (or Agents) be permitted access off the aforementioned Southwest Expressway, and then only after first notifying State's District Engineer, Room 1020, 160 N. LaSalle Street, Chicago 1, Illinois, who would then provide the necessary procedures for Railroad's emergency maintenance operations on Expressway right-of-way and protection for Expressway Traffic during such emergency operations.

Prior to performing any maintenance operations which might encroach upon the S. Cicero Avenue right-of-way or decrease the S. Cicero Avenue clearances, Railroad shall first obtain permission from State to enter upon the S. Cicero Avenue right-of-way for this purpose.

Section 11: Display of Advertising Matter in the Vicinity of the Expressway.

Railroad's symbol, emblem, or name may be displayed on the railroad-highway grade separation structure, in the form of either signs, plaques, medallions, or inscriptions painted directly upon the overhead girders thereon, provided said identifying mark of Railroad is sufficiently small to serve for informational purposes rather than for advertisement. Such identifying mark of Railroad shall conform with the provisions of Section 21 of the Unted States Department of Commerce, Bureau of Public Roads' Policy and Procedure Memorandum 21-10 entitled "Elimination of Hazards of Railway-Highway Crossings" and dated October 3, 1958, with subsequent amendments thereto.

Section 12: Approval of the U. S. Bureau of Public Roads and the Illinois Commerce Commission.

This Agreement shall not be binding upon the parties hereto until the U.S. Bureau of Public Roads has approved same and the Illinois Commerce Commission has entered an order approving same and both of these agencies have authorized the work herein described to be done under the terms herein set forth.

Section 13: Execution of Agreement.

This Agreement shall be binding upon and inure to the benefit of the parties hereto, their successors and assigns.

Pursuant to the execution of this Agreement by all of the Parties hereto, City shall enact an Ordinance duly passed by its City Council, which will permit the work described herein and which will nullify and void certain conflicting requirements imposed upon Railroad by the aforementioned City Ordinance of July 22, 1926.

Section 14: Termination of Agreement.

In the event of delays or difficulties in: (1) obtaining the necessary approvals of the U.S. Bureau

of Public Roads, (2) acquiring rights of way, or (3) settling damage claims, which delays make it impractical to proceed with the aforementioned project, then at any time prior to the awarding by State of a contract for the construction of this project or the start of actual construction pursuant to approval by the U.S. Bureau of Public Roads, State may serve formal notice to Railroad and City of the cancellation of this Agreement, which shall thereupon become null and void.

Upon receiving formal notice from State canceling this Agreement, Railroad shall prepare and submit to State a bill for all preliminary engineering and force account expense incurred by Railroad in connection with this project up to the time of the aforesaid formal notice. After State has reviewed such bill, the approved amount thereof shall be promptly reimbursed to Railroad.

In Witness Whereof, the parties hereto have caused this Agreement to be executed on the date and year first above written by their proper officers thereunto duly authorized.

[Signature and acknowledgment forms and Exhibits omitted.]

The above elevations as fixed shall be measured from Chicago City datum as established by the City Council of the City of Chicago.

The roadway(s) of the several street(s) heretofore specified between the points herein described, also the roadway(s) of all intersecting alley(s) extended from the curb line to the street line on each side of said specified street(s) between the points herein described shall be so graded by cutting for filling and compacted by rolling with a roller of ten (10) tons weight that after the grading of he roadbed(s) is completed and the pavement herein described placed thereon, the surface of the finished pavement at the center of the roadway of each of said specified street(s) shall be at the elevation of the top of the curbing herein described; and the surface of the said finished pavement at the summits in the gutters between catchbasins and adjoining the roadway face of the curbing shall be three (3) inches below the top of said curbing, and at the catchbasin inlets in the gutters adjoining the roadway face of the curbing shall be nine (9) inches below the top of said curbing. The slope of the gutters adjoining the roadway face of said curbing shall be uniform from the summits to the catchbasin inlets.

A transverse section of the surface of the finished pavement and gutters shall be an arc of a circle passing through the said gutter elevations and the elevation of the center of said finished roadway at every part of the roadway of each of said specified street(s) between the points herein described.

In all intersecting alley(s) herein specified at the street line(s) of said specified street(s) the surface of the finished pavement adjoining the curbing shall be even with the top of the curbing, and the surface of the finished pavement at the center of the roadway(s) of said alley(s) shall be three (3) inches below the top of the curbing; and a transverse section of the surafce of the finished pavement at the street line(s) of said specified street(s) shall be an arc of a circle passing through the surface of the pavement adjoining said curbing and the surface of the pavement at the center of said finished roadway(s). The surface of the said pavement thence shall slope gradually to meet the surface of the finished pavement at the curb lines of said specified street(s).

On the sub-grade as formed and compacted shall be spread an insulation course of limestone screenings. Said insulation course shall be one (1) inch in thickness and shall extend across the full width of the roadbed.

On the insulation course as formed and compacted shall be spread a foundation course consisting of a layer of crushed limestone of the best quality, broken so as to pass through a ring of four (4) inches internal diameter and held on a ring of two (2) inches internal diameter. The stone spread shall be well graded as to sizes. It shall be evenly distributed so as to leave no pockets filled with the small size stone. This layer shall be thoroughly rolled with a self propelled three wheel roller, weighing not less than ten (10) tons. The rolling shall begin at the edge of the pavement and the roller shall move parallel with the center line of the roadway. The roller shall progress gradually towards the center of the roadway, uniformly lapping each proceeding track, covering the entire surface with the rear wheels and continuing until the stone does not creep or move ahead of the roller. After the crushed limestone has been thoroughly rolled and keyed, limestone screenings shall be applied gradually over the surface and the rolling continued until sufficient screenings have been applied to completely fill the interstices.

The screenings shall be swept in with hand brooms to properly fill the voids. The spreading and rolling shall continue until no more screenings will go in dry. No excess of screenings shall be used before applying water. Immediately after the voids have been filled with screenings, the macadam shall be sprinkled until saturated, the sprinkler being followed by a roller. More screenings shall be added if necessary. The sprinkling, sweeping and rolling shall continue until a grout shall be formed of the screening and water that will fill all voids, and form a wave of grout before the wheels of the roller. The quantity of screenings and water necessary to fill, the voids shall be determined by the engineer and shall be sufficient to produce a rough, granular surface. The rolling, at all times, shall begin at the sides, and then progress toward the center, thoroughly covering the entire surface with the rear wheels. When compacted, this layer shall measure not less than five (5) inches in thickness.

Upon the finished waterbound macadam base there shall be uniformly applied by an approved type of spreader box, two (2) inch stone to a depth providing a total base course thickness of three (3) inches after final compaction. After shaping to grade and rolling with a ten (10) ton

roller three-quarter (¾) inch stone chips shall be broadcast and broomed into the surface voids at the rate of fifteen (15) pounds per square yard. Liquid asphalt at a temperature of 140°F. shall be uniformly applied by a pressure distributor at a rate of one and one-half (1½) gallons per square yard. Stone chips shall again be broadcast and broomed uniformly over the surface at the rate of fifteen (15) pounds per square yard. Liquid asphalt shall be uniformly applied by a pressure distributor at the rate of one-half (½) gallon per square yard. Stone chips shall be broadcast again at the rate of ten (10) pounds per square yard. The surface shall then be thoroughly rolled. The asphalt shall conform to the State Specification for Emulsified Asphalt R.S. 1 and R.S. 2, Page 640 of Illinois Standard Specifications for Road and Bridge Construction adopted January 2, 1952.

On the said foundation course shall be placed an asphaltic concrete surface course two (2) inches in thickness consisting of an asphaltic concrete mixture conforming to the standard requirements of the Illinois State Division of Highways for Type 1-11 Asphaltic Concrete, adopted January 2, 1952, as follows: the Asphaltic mix shall consist of a mineral aggregate bonded with the asphaltic cement. The mineral aggregate shall consist of the best quality of crushed gravel or crushed stone in sizes graduated in accordance with the following table, viz:

Asphaltic Concrete Surface Courses, Fine Dense Graded Aggregate Type.

Passing ½ inch sieve	95-100%
Passing ½ inch, retained on No. 4 sieve	45- 65%
Passing No. 4 retained on No. 10 sieve	10- 30%
Passing No. 10 retained on No. 40 sieve	5- 18%
Passing No. 40 retained on No. 50 sieve	7- 22%
Passing No. 80 retained on No. 200 sieve	5- 13%
Passing No. 200 sieve	4- 8%
Bitumen	5- 7%

(Table 45. llp. 247 State Specifications.)

The asphaltic cement shall conform with the standard requirements of the Illinois State Division of Highways for Grade P.A. 6, Paving Asphalt, adopted January 2, 1952. It shall have a flash point (Cleveland open cup) 500 plus Fahrenheit. It shall have penetration at seventy-seven (77) degrees Fahrenheit of seventy-five (75) to eighty-five (85), and at least ninety-nine and five tenths (99.5) per cent of bitumen shall be soluble in carbon disulphide.

When fifty (50) grams of said paving asphalt is heated in an uncovered tin box five and one-half (5½) centimeters in diameter and three and one-half (3½) centimeters in depth, and is held at a temperature of three hundred and twenty-five (325) degrees Fahrenheit for five (5) hours, then it shall have lost not over two (2) per cent by weight and the penetration of the residue thus obtained shall not be less than seventy (70) per cent of the penetration before such heating, said penetration being determined as herein described. Said paving asphalt shall have a ductility of not less than one hundred (100) centimeters being determined by elongating a briquette Dow form of said paving asphalt at uniform rate of five (5) centimeters per minute at a temperature of seventy-seven (77) degrees Fahrenheit.

The paving asphalt and mineral aggregate shall be mixed when heated between three hundred (300) and three hundred fifty (350) degrees Fahrenheit in an approved mixer to produce a homogenous mixture in which all particles of aggregate are coated uniformly. The heated mixture shall be delivered to the pavement in trucks with approved clean tight dump bodies. The temperature when delivered at the street shall be between two hundred fifty (250) and three hundred fifty (350) degrees Fahrenheit. Upon arrival the asphaltic mixture shall be spread upon the prepared base at a uniform depth and consistency so that the thickness when compacted as herein described will be two (2) inches. Immediately after the asphalt surface course shall be spread it shall be compacted thoroughly and uniformly with a three (3) wheel roller or a tandem roller. The asphalt paving mix shall be dumped first upon approved steel dump pans outside of the area on which it is to be spread. Immediately thereafter it shall be distributed into place with shovels and spread with rakes in layers of uniform density and correct depth, unless a spreading machine is used. If a spreading machine is used it shall be of a type approved by the Board of Local Improvements. Immediately after the surface course mixture is placed it shall be compacted thoroughly and uniformly with a three-wheel roller or a tandem roller. One (1) or more three-wheel rollers and one (1) or more tandem rollers will be required. The actual number of such rollers to be determined by the Engineer in accordance with the progress of the work. If the production of the asphalt plant delivered to the pavement exceeds seventy-five (75) tons per hour additional rollers shall be furnished as directed by said Engineer. After a final rolling the asphalt surface course shall at all points have a density of not less than ninety-five (95) per cent of the maximum possible density of a voidless pavement composed of the same materials in like proportions.

Concrete crosswalks shall be built at intersection only. Concrete crosswalks shall be built according to the Standard City Code of the City of Chicago.

The concrete shall conform to Class X Concrete (as described in this ordinance for curbs and gutters).

All existing catchbasins which are to be abandoned are located at the intersections of streets. Where existing catchbasins are to be abandoned the outlet pipe connection from the catchbasin to the sewer shall be plugged and properly sealed and the corbel courses broken down and the catchbasin cleaned and filled with suitable material.

Additional masonry where necessary. Inlets to be abandoned where necessary.

Said work is to be done in a workmanlike manner under the superintendence of the Board of Local Improvements of the said City of Chicago.

Section 2. That the recommendation of the Board of Local Improvements of the City of Chicago, providing for said improvement, together with the estimate of the cost hereof, including the lawful expenses attending the same, made by the engineer of said Board both hereto attached, be and the same are hereby approved.

Section 4. That the aggregate amount herein ordered to be assessed against the property, and also the assessment on each lot and parcel of land therein assessed shall be divided into five (5) installments in the manner provided by the statute in such cases made and provided, and each of said installments shall bear interest at the rate of five (5) per centum per annum according to law until paid.

Section 5. That for the purpose of anticipating the collection of the second and succeeding installments of said assessment for said improvement (excepting such part, if any, that is chargeable to the City of Chicago for public benefits to public land), bonds shall be issued payable out of said installments bearing interest at the rate of five (5) per centum per annum, payable annually, and signed by the Mayor and by the President of the Board of Local Improvements, countersigned by the City Comptroller and attested by the City Clerk under the corporate seal of the City of Chicago. Said bonds shall be issued in accordance with and shall in all respects conform to the provision of the Act of the General Assembly of the State of Illinois, entitled "An Act Concerning Local Improvements", approved June 14th, A. D. 1897, and the amendments thereto.

Section 6. That the Corporation Counsel be and he is hereby directed to file a petition in the Circuit, Superior or County Court of Cook County, Illinois, in the name of the City of Chicago, praying that steps may be taken to levy a special assessment for said improvement in accordance with the provisions of this ordinance and in the manner prescribed by law.

Section 7. That all ordinances, or parts of ordinances, conflicting with this ordinance be and the same are hereby repealed.

Section 8. This ordinance shall be in force from and after its passage.

Now, Therefore, This Agreement Witnesseth:

That, in consideration of the terms and covenants herein contained, the parties hereto agree as follows:

1. The City of Chicago agrees that simultaneously with the payment for said New Preliminary Loan

Notes by the purchaser or purchasers thereof (and using the proceeds of said New Preliminary Loan Notes, and other appropriate funds of the City to the extent necessary therefor) it will pay or cause to be paid (a) to the Government an amount equal to the aggregate principal amount of the Project Temporary Loan Notes, if any, of the City held by the Government for its own use and benefit on the date of the New Preliminary Loan Notes, plus accrued interest thereon to the date of payment; and (b) to the paying agent or agents for the Outstanding Preliminary Loan Notes the amount of Five Hundred Twenty-Two Thousand Five Hundred Twenty-Eight and 12/100 Dollars ($522,528.12) for the sole and only purpose of paying the principal of and interest, upon said Outstanding Preliminary Loan Notes to their maturity; and the Government agrees that simultaneously with said payments it will cause the Old Escrow Project Temporary Loan Note, and the Project Temporary Loan Notes, if any, held by the Government for its own use and benefit on the date of the New Preliminary Loan Notes, to be canceled and returned to the City.

In the event of the exercise of such option by the Government, the principal amount of the Escrow Project Temporary Loan Note shall by operation of law and this Requisition Agreement automatically be reduced to the amount of the part payment made by the Government of the Requisitioned Payment, and a legend informative of the fact of such part payment and of the reduction of the principal amount of the Escrow Project Temporary Loan Note to an amount equal to the part payment shall be endorsed by the Government on the Escrow Project Temporary Loan Note.

Any balance of said funds not needed to pay the principal of and interest to maturity on the New Preliminary Loan Notes shall be paid to the City and by it deposited in the appropriate fund or account described in the Loan Contract, to be used in accordance with the provisions of the Loan Contract.

The City agrees that, so long as any of the New Preliminary Loan Notes are outstanding and unpaid, it will not repeal, amend, or modify the proceedings authorizing the execution and delivery of the New Escrow Project Temporary Loan Note in such manner, or take any other action, as might affect or impair the validity of said New Escrow Project Temporary Loan Note and that it will not revoke its instructions authorizing the Government to make payment therefor in accordance with Paragraph 2 hereof or its consent to the provisions of Paragraph 7 hereof.

4. The Government agrees that until such time as it shall have made payment for the New Escrow Project Temporary Loan Note as set forth in Paragraph 2 hereof, it will hold said New Escrow Project Temporary Loan Note and collateral documents for the account of the City. When the Government shall have made payment of the Requisitioned Payment in the manner set forth above, the Government shall hold said New Escrow Project Temporary Loan Note for its own use and benefit as its own property. When and if the City shall deposit with each paying agent mentioned in Paragraph 2 hereof, out of moneys obtained by the City from sources other than the aforesaid Project Temporary Loan, a sum sufficient to pay the principal of and the interest to maturity on the New Preliminary Loan Notes for which such agent is the paying agent, the Government will cancel and surrender to the City said New Escrow Project Temporary Loan Note, and the obligation of the Government to make payment of the Requisitioned Payment shall be discharged.

5. The Government agrees that this Requisition Agreement is made with and for the benefit of, and may be assigned by the City to and for the benefit of, the holder or holders from time to time of the New Preliminary Loan Notes and of interest claims appertaining thereto. The Government further agrees with such holder or holders that it will perform and observe the provisions on its part set forth in this Requisition Agreement.

WHEREAS, the City of Chicago (herein sometimes called the "City") has entered into a contract dated as of the 25th day of October, 1963, and numbered Contract No. Ill. R-31(LG) (which, together with any supplements thereto or amendments, modifications or waivers of any provisions thereof, is herein called the "Loan Contract"), with the United States of America (herein called the "Government") acting by and through the Housing and Home Finance Administrator, providing for a Project Temporary Loan by the Government to the City, under Title I of the Housing Act of 1949, as amended, in an amount outstanding at any one time not to exceed $7,321,000.00 to aid the City in the undertaking and carrying out of a certain urban renewal project (herein called the "Project") designated Project No. Ill. R-31; and

WHEREAS, in accordance with the Loan Contract, the City has filed with the Government and the Government has approved a requisition (herein called the "Requisition") together with necessary supporting documents for a Project Temporary Loan payment thereunder in the amount of $3,045,000.00 (said payment in said amount being hereinafter called the "Requisition Payment"), and the Government is obligated to make the Requisitioned Payment as hereinafter provided; and

WHEREAS, the City is able to obtain a short-term loan from sources other than the Government in the amount of $2,931,000.00 at an interest cost less than the interest required to be paid under the Loan Contract on Project Temporary Loan funds which are made available by the Government, and thereby reduce carrying charges and other Project costs, and the City has determined to obtain such short-term loan from sources other than the Government (1) in order to refund or retire the Project Temporary Loan Note or Notes of the City, if any, held by the Government for its own use and benefit on the date of the Preliminary Loan Notes hereinafter described (which Project Temporary Loan Note or Notes so held are herein called "Old Project Temporary Loan Notes"); and (2) in anticipation of the Requisitioned Payment which the Government has become obligated to make by reason of the approval of the Requisition; and

WHEREAS, pursuant to said determination, the City on the 18th day of December, 1963, duly adopted an Ordinance entitled "Authorizing the Sale, Issuance and Delivery of Preliminary Loan Notes in the Aggregate Principal amount of $2,931,000.00 the Execution of Requisition Agreement No. 1, and the Execution and Delivery of Project Temporary Loan Note No. 1, in connection with Project No. Ill. R-31," authorizing among other things the sale, issuance, and delivery of its Preliminary Loan Notes (First Series Q) herein called the "Preliminary Loan Notes"; and

WHEREAS, the Government desires to cooperate with the City in its efforts to reduce the aforementioned costs, and desires to encourage participation of private capital in the cost of the Project; and

WHEREAS, the City has authorized and deposited with the Government its Project Temporary Loan Note No. 1 (herein called the "Escrow Project Temporary Loan Note") payable to the United States of America or order in the principal amount of the Requisitioned Payment, together with all necessary collateral documents, with directions to take delivery thereof upon compliance by the Government with the provisions of Paragraph 2 hereof; and the Government has approved the form and execution of the Escrow Project Temporary Loan Note and collateral documents, and has approved all of the proceedings authorizing the issuance of said Escrow Project Temporary Loan Note and the legality thereof when paid for in accordance with the terms of this Agreement, and has accepted deposit of said Escrow Project Temporary Loan Note pending its payment therefor as aforesaid:

Now, Therefore, This Agreement Witnesseth: That, in consideration of the terms and covenants herein contained, the parties hereto agree as follows:

1. The City of Chicago agrees that simultaneously with the payment for said Preliminary Loan Notes by the purchaser or purchasers thereof (and using the proceeds of said Preliminary Loan Notes, and other appropriate funds of the City to the extent necessary therefor) it will pay or cause to be paid to the

Government an amount equal to the aggregate principal amount of the Old Project Temporary Loan Notes, if any, of the City held by the Government for its own use and benefit on the date of the Preliminary Loan Notes, plus accrued interest thereon to the date of payment; and the Government agrees that simultaneously with said payment to the Government it will cause the Old Project Temporary Loan Notes, if any, held by the Government for its own use and benefit on the date of the Preliminary Loan Notes, to be canceled and returned to the City

2. The City hereby directs, and the Government agrees that without any further showing by the City of the necessity therefor, and irrespective of compliance by the City with the conditions of Paragraph 1 above, the Government will make payment of the Requisitioned Payment as follows, and in no other manner: Said Requisitioned Payment will be made on the 7th day of January, 1965 (or, if the Government desires and the City consents thereto, at any time prior to said date), in the amounts set forth below, to the paying agents named in the Preliminary Loan Notes for the account of the City, to be used to the extent necessary for the payment of the principal of and interest to maturity on said Preliminary Loan Notes:

To Paying Agent for Preliminary Loan Notes Nos. 1 to 78, inclusive, First Series Q, $2,991,325.43, said Paying Agent being the Continental Illinois National Bank and Trust Company of Chicago, 231 South LaSalle Street, Chicago 4, Illinois;

Provided, That the Government, at its option may make the Requisitioned Payment in an amount equal to the difference between the aggregate of the principal of the Preliminary Loan Notes and the interest theron to maturity and funds deposited by or on behalf of the City with the Paying Agent for the purposes of paying principal of or interest on the Preliminary Loan Notes. In the event of the exercise of such option by the Government, the principal amount of the Escrow Project Temporary Loan Note shall by operation of law and this Requisition Agreement automatically be reduced to the amount of the part payment made by the Government of the Requisitioned Payment, and a legend informative of the fact of such part payment and of the reduction of the principal amount of the Escrow Project Temporary Loan Note to an amount equal to the part payment shall be endorsed by the Government on the Escrow Project Temporary Loan Note.

Any balance of said funds not needed to pay the principal of and interest to maturity on the Preliminary Loan Notes shall be paid to the City and by it deposited in the appropriate fund or account described in the Loan Contract, to be used in accordance with the provisions of the Loan Contract.

3. The City agrees that, so long as any of the Preliminary Loan Notes are outstanding and unpaid, it will not repeal, amend, or modify the proceedings authorizing the execution and delivery of the Escrow Project Temporary Loan Note in such manner, or take any other action, as might affect or impair the validity of said Escrow Project Temporary Loan Note and that it will not revoke its instructions authorizing the Government to make payment therefor in accordance with Paragraph 2 hereof or its consent to the provisions of Paragraph 7 hereof.

4. The Government agrees that until such time as it shall have made payment for the Escrow Project Temporary Loan Note as set forth in Paragraph 2 hereof, it will hold said Escow Project Temporary Loan Note and collateral documents for the account of the City. When the Government shall have made payment of the Requisitioned Payment in the manner above set forth, the Government shall hold said Escrow Project Temporary Loan Note for its own use and benefit as its own property. When and if the City shall deposit with each paying agent mentioned in Paragraph 2 hereof, out of moneys obtained by the City from sources other than the aforesaid Project Temporary Loan, a sum sufficient to pay the principal of and the interest to maturity on the Preliminary Loan Notes for which such agent is the paying agent, the Government will cancel and surrender to the City said Escrow Project Temporary Loan Note(s), and the obligation of the Government to make payment of the Requisitioned Payment shall be discharged.

5. The Government agrees that this Requisition Agreement is made with and for the benefit of, and may be assigned by the City to and for the benefit of, the holder or holders from time to time of the Preliminary Loan Notes and of interest claims appertaining thereto. The Government further agrees with such holder or holders that it will perform and observe the provisions on its part set forth in this Requisition Agreement.

6. The City certifies that, as of the date hereof, the following described Project Temporary Loan Note or Notes payable, on demand, to the United States of America or order, have been issued by it in connection with the Project and are now outstanding:

WHEREAS, The classification and wage and salary plan for City positions will promote greater efficiency and will reduce as far as possible the many inequities that have developed over the years in the classification and pay of employees; and

WHEREAS, The adoption of the plan will establish salary schedules for the various classifications based on costs of living in the Chicago area, prevailing salaries and the nature and responsibility of the positions. The plan establishes a sound and equitable personnel policy throughout the City service. It will encourage qualified men and women to seek a career in City service. It will reduce turnover. A longevity provision in the plan insures recognition for long and faithful service to the City. It will simplify budgeting of personnel services in all departments; and

WHEREAS, The Budget takes into consideration the provisions of the classification and wage and salary plan; and

WHEREAS, In order to coordinate the provisions and the appropriate rules relating to such classification and wage and salary plan and the provisions of the Budget providing for the salaries for the fiscal year, it is desirable that the following declaration by the City Council be adopted;

Now, Therefore, Be It Resolved, That the following provisions governing the administration of compensation be adopted:

REGULATIONS GOVERNING THE ADMINISTRATION OF COMPENSATION FOR CLASSIFIED POSITIONS.

A. PURPOSE.

These regulations contain provisions governing compensation administration, benefits and working conditions for all classified positions under the jurisdiction of the Civil Service Commission in the departments and offices which are subject to control and regulation by and for which compensation is required to be fixed by the Mayor and the City Council of the City of Chicago, except the positions in the Chicago Public Library and the Chicago Board of Education; and for all positions in the departments which are exempted from the jurisdiction of the Civil Service Commission but which are subject to the control and regulation by and for which compensation is required to be fixed by the Mayor and the City Council of the City of Chicago.

B. ADOPTION AND DEFINITION OF THE COMPENSATION PLAN.

(1) *Adoption of the Compensation Plan.*

The salary schedules, including a range of pay for each class grade, as set forth in Schedule B—Base Salary Schedules for civil service classified positions (except positions with single rates) and for positions in the exempt offices; Schedule C—Longevity Salary Schedules for the positions covered by Schedule B; and Schedule D—Base Salary Schedules for Uniformed Firefighters and Police Positions, hereof, shall constitute the compensation plan for the City employees in departments which are subject to the control of the Mayor and the City Council. The class grade for each class of positions as specified in Schedule A-1—Civil Service Classified Positions; Schedule A-2—Municipal Court; Schedule A-3—Law Department; and Schedule A-4—Board of Election Commissioners, as on file with the Civil Service Commission, shall determine the salary range applicable to all positions of the class.

(2) *Base Salary Schedules.*

Each base salary range in Schedule B includes an entrance rate, an intermediate rate or rates and a maximum rate. The normal entrance rate shall be the rate so designated in the salary schedule for all salaried positions. Except as otherwise provided herein, the salary upon initial appointment to any position shall be at the entrance rate and advancement by successive steps from specified salary rate to the next higher rate shall be made on the basis of satisfactory service for at least the periods specified in the schedules.

(3) *Longevity Salary Schedules.*

Each longevity salary range in Schedule C includes three longevity pay rates. After at least one year of satisfactory service at the maximum rate of a base salary range, each salaried employee shall be advanced to the first longevity rate of that range when he has completed a total of six years of continuous service with the City. After at least one year of satisfactorv service at this rate, the employee shall be advanced to the second longevity rate when he has completed a total of ten years of continuous service with the City. After at least one year of satisfactory service at this rate, the employee shall be advanced to the third longevity rate when he has completed a total of sixteen years of continuous service with the City.

(4) *Salary Schedule for Uniformed Positions in the Fire and Police Forces.*

The salary schedule for uniformed positions in the Fire and Police Forces set forth in Schedule D includes an entrance rate, an intermediate rate or rates and a maximum rate in each base salary range. Except as otherwise provided herein, the salary upon initial appointment to any position shall be at the entrance rate and advancement by successive steps from each specified salary rate to the next higher rate shall be made on the basis of satisfactory service for at least the periods specified in the schedules.

(5) *Salary Rates Based Upon Full-Time Employment.*

The salary rates prescribed in the salary schedules are fixed on the basis of full-time service for normal work weeks of 35 to 40 hours except as indicated otherwise for certain classes in Schedules A-1, A-2, A-3 and A-4 which are on file with the Civil Service Commission. For positions which are professional, supervisory and executive in character, the normal work weeks of 35 to 40 hours generally apply, but the compensation is intended to appropriate for the class regardless of variations in the time that may be required to satisfactorily fulfill the responsibilities of the positions.

(6) *Computation of Salaries of Part-Time Employees.*

A professional employee occupying a position in Class Grade 12 and above who is regularly employed on a continuing work schedule of less than 35 hours per week, shall be compensated on the following basis:

(PT-B)—Authorized part-time service more than one-fourth and not more than one-half full-time, or part-time professional service on an available-as-needed basis—sixty per cent (60%) of rates prescribed for full-time employement

(PT-C)—Authorized part-time service not more than one-fourth full-time—thirty per cent (30%) of rates prescribed for full-time employment.

Any other employee who is employed on a part-time schedule shall be paid for hours actually worked at an hourly rate equivalent to the salary rate of the position.

(7) *Continuity of Service.*

Service requirements for advancement within the salary ranges and for other purposes as specified in this resolution shall have the implication of continuous service within the City of Chicago, includng the positions which are exempt from the jurisdiction of the Civil Service Commission. This means continuously paid employment without a break of interruption; provided that any absence on leave without pay or layoff for 30 days or less or absence in individual cases adjudged eligible for duty disability compensation or absence on military leave as set forth in Chapter 24½, Paragraph 151 of the Illinois Revised Statutes, shall not affect the continuity of service. Absence from the City service on leave without pay for periods in excess of 30 days, all suspensions, time after layoff for more than 30 days and prior to reinstatement, and all absences without leave shall be deducted in computing total continuous service. All discharges and resignations not followed by reinstatement within one year shall interrupt continuous service and shall result in the loss of all prior service credit.

Any employees of the City who have rendered service to the County of Cook, the Chicago Park District, the Forest Preserve District, the Chicago Land Clearance Commission, the Chicago Housing Authority, the Metropolitan Sanitary District of Greater Chicago, the State of Illinois or the Chicago Board of Education shall have the right to have the period of such service credited and counted for the purpose of advancement within the longevity salary schedules, provided that the above interpretation of continuous service shall apply.

C. Application and Interpretation of the Compensation Plan.

(1) *Starting Rate on Initial Employment.*

Original appointments to any positions shall be made at the entrance rate of the salary range prescribed for the applicable class grade. In exceptional cases, upon recommendation by the department head and by the Civil Service Commission, or in the cases of positions in the exempt offices by the Corporation Counsel, by the Judges of the Municipal Court or by the Board of Election Commissioners, and upon the approval of the Budget Director and the Chairman of the Committee on Finance of the City Council, original appointment may be made at any base rate above the normal entrance rate; provided that the position to which appointed involves executive, administrative, highly specialized, or professonal duties and responsibilities; and provided further, that any such exception is based on the outstanding and unusual character of the applicant's experience and training over and above the minimum qualifications specified for the class.

(2) *Starting Rate on Return to Duty.*

When an employee returns to duty in a position of the same class grade after a separation from the City service of not more than one calendar year, which separation was not due to discharge or resignation for cause, such employee shall receive the rate in the applicable salary range of the step corresponding to the step at which paid at the time of separation, and shall subsequently serve thereat for at least such additional period as is required for advancement to the next higher step.

(3) *Starting Rate Following Promotion.*

When an employee is promoted or reappointed from one position to a position in a higher class grade, such employee shall be paid at the rate of the lowest step in the higher salary range that will provide an increase in salary of two steps over the salary paid in the preceding year, except when an employee is promoted a second time within a fiscal year, such employee shall receive an increase of one step over his salary rate in the previous position upon his second promotion, and further provided that such employee shall be paid at least at the entrance rate of the new position, even though this may provide an increase in excess of the aforementioned limitations.

(4) *Starting Rate on Reclassification of Position.*

In the event that a position is reclassified from one class of positions to another class of positions in the same class grade, the incumbent of such position when appointed to the new position by proper authority shall retain the salary he received in the former position.

In the event that the class grade for a class of positions is changed to a higher class grade by the appropriate authority, the incumbents of such positions shall retain the rate of pay received in the former grade and shall receive such rate of pay for such additional period as may be required for advancement to the next higher rate of pay, provided that such employees shall be paid at least the entrance rate for the new grade.

In the event that the class grade for a class of positions is changed to a lower class grade by the appropriate authority, the incumbents of such positions shall retain the salary they received in the higher salary range.

(5) *Starting Rate on Appointment to a Position of a Lower-Class Grade.*

In the event that an employee is appointed to a position of a lower class grade, than that of his former position, such employee shall be paid at the same step in the lower class grade as he had been paid in the higher class grade, provided that when an employee receives a civil service promotion to a position which is of a lower grade level than the position in which he is employed the salary of said employee in the new position shall be based upon length of service in the position from which he is being promoted plus the length of service in the higher level position.

(6) *Anniversary Dates and Salary Schedule Advancement following Salary Adjustment.*

After initial appointment to a classified position under the jurisdiction of the Civil Service Commission or to a position in the exempt offices, the

anniversary date for an employee for purposes of advancement within a salary range shall be adjusted to coincide with the date of an action which increases the pay of the employee. Such action may be in the form of pay advancement within a salary range, promotion, reclassification of the position or change of class grade of the position.

(7) *Limitation of Salary Adjustments.*

Personnel actions which result in increases in pay by means of advancement within a salary range, promotion, reclassification or position, or change of class grade of position shall be made as set forth herein, provided that no employee shall receive the benefit of more than two such actions in any fiscal year, unless a supplemental action is recommended by the department head and is approved (a) by the President of the Civil Service Commission for positions under its jurisdiction, or (b) by the appointing authority for positions in the exempt offices, and (c) by the Budget Director and the Chairman of the Committee on Finance of the City Council.

(8) *Accumulation of Service in One Class of Positions.*

Whenever an employee accepts work of the same or of a higher level under a different class of positions (or in an exempt position in the City service on leave of absence) and later returns to his former same or lower position, his term of employment under such different class of positions shall apply on and be added to his term of service in the same or lower level class upon his return to same, for the purpose of determining the appropriate rate of pay within the range appropriate for the class; provided his employment in the City service has been continuous as hereinbefore defined.

(9) *Recommendations for Pay Advancement within a Salary Range.*

The department head concerned shall recommend in writing to the Civil Service Commission, or to the appropriate appointing authority for positions in exempt offices, the advance in salary of each employee in his department who has met the requirements for salary advancement within the range for his position in accordance with the service requirements specified in Section B (2) and (3) dealing with base salary schedules and longevity schedule. In the case of a classified position under jurisdiction of the Civil Service Commission, the recommendation shall include a certification that the employee has a performance rating of not less than 70, as computed in accordance with the Performance Rating Guide issued by the Civil Service Commission.

The effective date of any salary advancement within the salary range shall be at the first day of the next pay period following the date the advancement is recommended and authorized as provided herein and approved by the Civil Service Commission or by the appointing authority for positions in the exempt offices.

D. PREVAILING RATE POSITIONS.

A prevailing rate (PR) position is hereby defined as one for which the rate is established under acceptable evidence of the wage prevailing in industry. Such positions are usually craft, labor or trade positions, and are not paid under the provisions of the Compensation Plan.

In the event that the pay basis for position is changed from a prevailing rate to a salary schedule in a class grade the incumbent shall receive the lowest rate in the salary schedule that will not result in a decrease in salary. The Compensation Plan provisions shall thereafter govern.

In the event that an employee is appointed from a position paid on a prevailing rate basis to another position classified and paid under the Compensation Plan, such employee shall be given credit for the time served in the former position in determining the salary rate, provided that any increase in salary shall not exceed 5%, and provided further that the employee shall in no case receive less than the minimum rate of the salary range of the new position. The applicable Compensation Plan provisions shall thereafter govern.

(3) *Limitations of Available Funds.*

All ordinary and special compensation provisions herein shall be effective only in the event sufficient funds for the respective positions have been appropriated and are available.

F. AUTOMOBILE ALLOWANCE.

Any employee who is required and is authorized to use his personally-owned automobile regularly in the conduct of official City business and whose title is so specified in the Budget shall be allowed and paid uniform monthly rates on the basis of the number of miles per month use of such privately-owned automobile as provided in Section 7 of the appropriation ordinance.

An employee who is authorized by his department head to use his personally owned automobile on occasional trips within or outside the City in the conduct of City Business shall be paid a milage allowance at the rate of 8 cents per mile.

An employee who regularly uses his personally owned automobile in the conduct of City business and uses his car to store and transport heavy and bulky tools or equipment required in the performance of his work shall be paid $30 per month in addition to the schedule rate based on actual mileage, provided that the total of such payment shall not exceed $90 per month.

In determining actual mileage for which compensation will be paid, the mileage shall not be counted from employee's home to his first stop for the conduct of City business or from the employee's home to the office from which he received supervision if this is less than the mileage to his first stop, or on return from his last work stop or office of supervision to his home whichever is the least.

I move that the vote by which the 1964 Budget and Appropriation Ordinance heretofore adopted by the City Council on December 4, 1963, and appearing on pages 1330 to 1904 of the Journal of the Proceedings of the City Council for that date, be reconsidered.

Alderman Keane raised a point of order that the motion was out of order stating that the appropriation ordinance is governed by the State Statute inasmuch as it is necessary to complete two meetings after the passage of the Annual Appropriation Ordinance.

Alderman Sperling in a parliamentary inquiry stated that Alderman Chew wished to reconsider his own vote.

At the request of Alderman Keane the privilege of the floor was given to Mr. John C. Melaniphy, Corporation Counsel, who explained the statutory provisions governing the passage of the annual appropriation ordinance.

WHEREAS, With a deep sense of personal and civic loss the Mayor and the members of this City Council learned of the death of William P. Geis on January 17, 1964; and

WHEREAS, "Bill" Geis, as he was known to everyone, was with the City of Chicago for almost fifty-six years, fifty-two of which he spent in the office of the City Collector and approximately the last twenty-five years as Deputy City Collector. There his vigorous, dynamic personality was, over the long period of his service, in great part responsible for the type of service rendered the public. His administrative ability, his broad grasp of the problems of the city developed over half a century, his overriding desire to keep service at the highest level, his great personal drive which communicated itself to others, made him an invaluable and beloved figure in the administration of the business of the city. His counsel was sought at the highest levels, his advice was respected on all phases of Chicago's revenue problems, he was respected and beloved. His familiar figure, hat pushed back, ready smile which belied his brusque manner, and genial personality will be sorely missed by the host of friends among us; now, therefore,

Be It Resolved, That the Mayor, the members of the City Council, and the City Council on behalf of the people of Chicago hereby record their sense of loss at the death of William P. Geis, and extend their profound sympathy to the members of his family.

By unanimous consent committee consideration was dispensed with, and on motion of Alderman Corcoran (seconded by Aldermen Keane, J. P. Burke, Ronan and Hoellen), said proposed resolution was *Adopted,* unanimously, by a rising vote.

Alderman Corcoran and the seconding Aldermen eulogized the memory of Mr. Geis, emphasizing the outstanding service he had rendered to the public and to the administration through the ability, experience and dedication he had demonstrated in discharging his duties throughout the many years he had served the City.

Honorable Richard J. Daley, Mayor, thereupon addressed the Council, expressing his esteem for the late Deputy City Collector as a person and as a devoted City employe.

Tribute Paid to Late Fred A. Fulle.

Honorable Richard J. Daley, Mayor, on behalf of himself and other members of the City Council, presented the following proposed resolution:

WHEREAS, The Mayor and the members of the City Council are grieved to learn of the death last night of Fred A. Fulle, member of the Cook County Board of Commissioners; and

WHEREAS, Mr. Fulle served as a member of the County Board since 1954, he was a prominent suburban newspaper publisher, former president of the Cook County Suburban Publishers Association, a former member of the Des Plaines City Council, and a committeeman for Maine Township from 1936 until 1963. He was highly respected by all with whom he was associated both in public life and private enterprise; now, therefore,

Be It Resolved, That the Mayor and the City Council of the City of Chicago hereby express their sorrow at the passing of Fred A. Fulle and extend their heartfelt sympathy to his bereaved family; and

Be It Further Resolved, That as a mark of respect to his memory this resolution be spread upon the record of the Proceedings of the City Council and that a copy thereof be presented to the family of Fred A. Fulle.

By unanimous consent committee consideration was dispensed with, and on motion of Alderman Scholl (seconded by Aldermen Bohling, Hoellen and Sperling), said proposed resolution was *Adopted,* unanimously, by a rising vote.

Eisenhower Expressway".—*Placed on File.*

Court Decisions.

Also communications from the Law Department informing the City Council as to court decisions in the causes noted, which were *Placed on File* as follows:

City of Chicago, Plaintiff-Appellee vs. *Donald Ballinger, et al.*, Defendants on Appeal of Donald Ballinger, Appellant, Appellate Court No. 48995. The Appellate Court of Illinois, 1st District, on January 9, 1964, reversed the judgment in the above entitled

cause. The judgment had awarded the City of Chicago $100 and costs against Donald Ballinger for failure to deconvert a residence on the top floor of a building located at No. 7201 S. Princeton Avenue. (The Appellate Court held that the particular circumstances of specified sections of the Municipal Code of Chicago "do not require the defendant to deconvert the building in question");

City of Chicago v. *Herman O. Shayne, et al.,* in Condemnation; *The City Bank & Trust Company* v. *Francis S. Lorenz, et al.,* Third Party Defendants; *Irving L. Butler and Willie Mae Atkinson, Appellants* v. *Chicago City Bank & Trust Co., etc., et al., Appellees;* in Trespass. *Appellate Court No. 49170.* The Appellate Court on January 6, 1964 filed an opinion in the above cause affirming a judgment of $4,000 in favor of Irving L. Butler and Willie Mae Atkinson against the City of Chicago. The Court in so doing, denied Butler's and Atkinson's claim for $250,000 damages. (The sole issue respecting the City was whether Butler and Atkinson were entitled to damages of $250,000 or any amount over $4,000; the Court ruled that they were not entitled to damages for the closing of their liquor business since that was required by Statute when the City acquired title to the property. The closing of their barbecue business was not justified. The Court found that the verdict was within the range of the testimony offered and affirmed the trial court).

Provided, however, that the rights conferred under this Article I shall not be construed to authorize the conduct by Airline of any business separate from its operation of an air transportation system; and further provided, that the rights conferred under this Article I may be exercised by Airline alone or in conjunction with any other Airline Parties, directly or through another designated by it or them, excepting that the rights conferred by subparagraph (c) above to service aircraft and other equipment with gasoline, oil, greases, lubricants and other fuel or propellant may be exercised by Airline in conjunction with any other Airline Parties, either directly or through another designated by them, only with respect to aircraft and other equipment operated by Airline Parties.

Airline shall have the right and privilege to install and maintain and operate at such location on the Airport as may be approved by the Commissioner of Aviation, communication, meteorological and aerial navigation equipment and facilities as may be reasonably necessary or convenient to the conduct by it of air transportation, provided the exercise of such right and privilege does not interfere with City's operation of Airport for the benefit of all aircraft using the Airport.

Subject to rules and regulations promulgated by City in accordance with Article VIII hereof, Airline shall have the right and privilege over the Airport of ingress to and egress from (but not any other use of, except as authorized in this Agreement or in any other agreement between City and Airline) the areas and facilities described in this Article I for its employees, agents, passengers, guests, patrons and invitees, its or their suppliers of materials and furnishers of service, its or their equipment, vehicles, machinery and other property and except as in this Agreement or in any other agreement between City and Airline otherwise specifically provided, no charges, fees or tolls of any nature, direct or indirect, shall be imposed by City upon Airline, its employees, agents, passengers, guests, patrons and invitees, its or their suppliers of materials and furnishers of service for such right of ingress and egress, or for the privilege of purchasing, selling or using any materials or services purchased or otherwise obtained by Airline, as provided in subparagraphs (g) and (i) of this Section, or transporting, loading, unloading or handling persons, property, cargo or mail in connection with Airline's business or exercising any right or privilege granted by City hereunder. The foregoing shall not preclude City or its concessionaires from making and collecting a charge for the use of public automobile parking areas, sightseeing facilities or ground transportation to and from the Airport or preclude City from imposing any tax or permit or license fee not inconsistent with the rights and privileges granted to Airline hereunder.

This grant is not to be construed as a lease of any space in any passenger terminal building, any adjacent ramp area leased by City to any air transportation company or other person, firm or corporation, any hangar, any air cargo building, any fueling system or any other building constructed or to be constructed by City at the Airport. Any ramp area at the Airport leased by City to one or more air transportation companies, persons, firms or corporations shall not be considered to be a public ramp area or a ramp area available for common use.

Article II

Flight Fees for Landing of Aircraft.

Section 2.01. Flight Fees for landing of aircraft. In connection with each fee landing at the Airport

of each aircraft operated by it, Airline shall pay to City a fee (hereinafter called "Flight Fee") determined as hereinafter provided.

Each separate landing at the Airport of an aircraft (whether in connection with a revenue or a non-revenue flight) operated by Airline or others, shall be a "fee landing", except that a "fee landing" shall not include the following:

(a) any landing at the Airport of an aircraft which shall have taken off from the Airport and, without making a stop at any other airport, returns to and lands at the Airport because of meteorological conditions, mechanical or operating causes, or any similar emergency or precautionary reason;

(b) any landing at the Airport of an aircraft returning to the Airport on a non-revenue flight from the Chicago Municipal Airport, known as Midway Airport, provided each such aircraft shall have taken off from the Airport on a non-revenue flight to Midway Airport without in either case making a stop at any other airport;

(c) any touch-and-go and similar operation in which an aircraft comes in contact with a runway at the Airport and without comnig to a stop thereafter resumes flight by leaving the ground from the same runway and in the same direction;

(d) any landing of aircraft operated by the United States Government or the Illinois National Guard if and to the extent the lease entered into between City and the United States Government, dated May 16, 1958, relating to the Airport shall remain in effect and under the terms and conditions thereof, such landing is to be without charge, or if and to the extent that under the terms and conditions of assurances pursuant to the Federal Airport Act, or any other prior or future Acts of Congress or of the General Assembly of the State of Illinois that may provide for Grants in Aid of airport development, such landing is to be without charge; or

(e) any landing at the Airport of helicopter aircraft operated in local service between the Airport and any point within a radius of fifty (50) miles from the Airport.

Section 2.02. Flight Fee Rate during the term of this agreement while any Approved Revenue Bonds are outstanding. So long as any Approved Revenue Bonds are outstanding, during the term of this agreement, the Flight Fee payable in connection with each fee landing at the Airport of an aircraft operated by Airline shall be such amount (computed to the nearest 1/10th of a cent) per each one thousand pounds (1,000 lbs.) of the approved maximum landing weight of such aircraft as equals the quotient obtained by dividing (a) the Flight Fee Revenue Requirements for the fiscal year in which such fee landing occurs by (b) the number of thousands of pounds of the aggregate approved maximum landing weight of all aircraft operated by all Airline Parties and landed in fee landings at the Airport during such year, both as estimated by the Airport Consultant. So long as any Approved Revenue Bonds are outstanding, the Airport Consultant shall, prior to January 1 and July 1 of each year, during the term of this agreement, furnish an estimate of Flight Fee Revenue Requirements for such year and of the number of thousands of pounds of the aggregate approved maximum landing weight of all aircraft operated by all Airline Parties to be landed in fee landings at the Airport during such year and during the six-month periods commencing such January 1 or July 1, respectively, and shall recommend, based on such estimate, the Flight Fee rate for fee landings at the Airport during each such six-month period of aircraft operated by Airline Parties. The Airport Consultant in making any estimate of Flight Fee Revenue Requirements for any fiscal year at any time after the Budget, referred to in the Revenue Bond Ordinance, for such fiscal year shall have been adopted, shall use budgeted amounts wherever applicable, and in so far as such estimate involves any deferred income property allocable to such year on account of the results of the next preceding fiscal year, any such estimate made after the filing of the audited statement, referred to in Section 6.08 of the Revenue Bond Ordinance, for such next preceding year shall take into account the amount shown as such deferred income in such audited statement. The Flight Fee rate for such fee landings shall be established (including, if required, any revision thereof as of July 1 of any year) according to such recommendation of the Airport Consultant.

Section 2.03. Deficiency in Flight Fees while any Approved Revenue Bonds are outstanding during the term of this agreement. In the event that in any fiscal year during the term of this agreement any Approved Revenue Bonds are outstanding, the Revenues under the Revenue Bond Ordinance for such fiscal year (excluding, however, any Flight Fee deficiency for such fiscal year) shall be less than the amount of Airport Expense for such fiscal year (such deficiency being herein referred to as the "Flight Fee deficiency"), then Airline shall pay to City the Airline's pro rata share of the Flight Fee deficiency for such year or portion thereof. Airline's pro rata share of the Flight Fee deficiency for any fiscal year shall be such amount as bears the same proportion to the amount of such deficiency as the number of thousands of pounds of the aggregate approved maximum landing weight of all aircraft operated by Airline and landed in fee landings at the Airport during such year bears to the number of thousands of pounds of the aggregate approved maximum landing weight of all aircraft operated by all Airline Parties and landed in fee landings at the Airport during such year. The City Comptroller shall promptly, but not later than January 15, after the end of each such fiscal year, furnish to Airline an estimate of the Revenues under the Revenue Bond Ordinance and Airport Expense for such year, including an estimate as to whether or not any Flight Fee deficiency exists for such year, and Airline shall pay its pro rata share of any Flight Fee deficiency for such year shown by such estimate. In the event the Flight Fee deficiency for any fiscal year shown in the audited statement, referred to in Section 6.08 of the Revenue Bond Ordinance, for such year, shall exceed the Flight Fee deficiency for such year shown in the above-mentioned estimate of the City Comptroller for such year, then Airline shall pay its pro rata share of such excess, and in the event such audited statement for any fiscal year shall show a Flight Fee deficiency for such year, but no Flight Fee deficiency for such year shall have been shown in the above-mentioned estimate of the City Comptroller for such year, then Airline shall pay its pro rata share of the Flight Fee deficiency shown in such audited statement.

Section 2.04. Flight Fee rate after effective date of Agreement and when no Approved Revenue

Bonds are outstanding. At any time after the effective date of this Agreement when no Approved Revenue Bonds are outstanding, the Flight Fee payable in connection with each fee landing at the Airport of an aircraft operated by Airline during each twelve-month period (or portion thereof during which no Approved Revenue Bonds are outstanding) commencing July 1 shall be such amount (computed to the nearest 1/10th of a cent) per each one thousand pounds (1,000 lbs.) of the approved maximum landing weight of such aircraft, as equals the quotient obtained by dividing (a) the Adjusted Net Airport Expense for the fiscal year next preceding the commencement of such twelve-month period by (b) the number of thousands of pounds of the aggregate approved maximum landing weight of all aircraft operated by all Airline Parties and landed in fee landings at the Airport during such preceding fiscal year.

Section 2.05. Minimum Flight Fee. Notwithstanding the foregoing provisions, the Flight Fee payable in connection with each fee landing at the Airport of an aircraft operated by Airline shall at no time be less than a minimum of Six Cents ($0.06) per each one thousand pounds (1,000 lbs.) of the approved maximum landing weight of such aircraft.

Section 2.06. Definitions. Article XVI hereof defines various terms used in this Article II.

Article III

Aircraft Parking Fees.

In the event Airline shall park its passenger aircraft in any public passenger ramp area at the Airport for a period of more than forty-five (45) minutes, then at the discretion of City, removal of such aircraft may be directed by it and if upon the lapse of a fifteen (15) minute period after such direction, Airline shall fail to so remove its aircraft, it shall pay to City a fee of Five Dollars ($5.00) for each thirty (30) minutes or fraction thereof that such aircraft remains in such public passenger ramp area after such fifteen (15) minute period. In the event Airline shall park its cargo aircraft in any public cargo ramp area for a period of one hundred twenty (120) minutes, then at the discretion of City, removal of such aircraft may be directed by it and if upon the lapse of a fifteen (15) minute period after such direction, Airline shall fail to so remove such aircraft, it shall pay City a fee of Five Dollars ($5.00) for each thirty (30) minutes or fraction thereof that such aircraft remains in such public cargo ramp area after such fifteen (15) minute period.

City may charge Airline fees of not more than Ten Dollars ($10.00) for each twenty-four (24) hours or fraction thereof in excess of a free period of twenty-four (24) hours for the parking of its aircraft in public aircraft parking areas.

Article IV

Payment of Fees.

City shall, within fifteen (15) days following the end of each calendar month, furnish to Airline a statement setting forth the amount of any Flight Fees and Aircraft Parking Fees payable by Airline hereunder for such month. The amount of any Flight Fees and Aircraft Parking Fees payable by Airline hereunder for any calendar month shall be due and payable by it on the last day of the next succeeding calendar month.

City shall, as promptly as practicable, furnish to Airline a statement setting forth any amount payable by Airline pursuant to Section 2.03 hereof as Airline's pro rata share of any Flight Fee deficiency and such amount payable by Airline shall be due and payable by it within twenty (20) days after such statement is mailed or otherwise delivered by City.

All amounts payable by Airline hereunder shall be paid to City at the office of the City Comptroller of City and any amount payable by Airline hereunder which is not paid when due shall bear interest at the rate of seven per cent (7%) per annum from the due date thereof until paid.

The payment by Airline to City of any amount thereunder and the acceptance thereof by City, shall not preclude either Airline or City from questioning, within a period of eighteen (18) months from the date of such payment by Airline, the accuracy of any statement on the basis of which such payment was made, or preclude City from making, within such period, any claim against Airline for any additional amount payable by Airline hereunder, or preclude Airline from making, within such period, any claim against City for credit for any excess amount paid by Airline hereunder.

Article V

Term of Agreement.

Section 5.01. Term. The term of this Agreement shall be for a period commencing on the date hereof and ending on December 31, 1973, except that Airline shall have the right to terminate this Agreement effective December 31, 1968, by giving notice to the City before November 1, 1968, of such termination. Failure to give such notice shall be deemed to be a waiver of the right of termination provided under this Article V.

Section 5.02. Covenant to use Airport. Airline covenants and agrees with City that subject to such orders, rules and regulations as may be promulgated from time to time by the Federal Government or any agency thereof, it will during each fiscal year during the term of this agreement that any Approved Revenue Bonds are outstanding, use the Airport and provide for fee landings of its aircraft at the Airport; provided, however, that if Airline does not now have terminal building space at the Airport, the above covenant shall be applicable to Airline from and after such time as adequate terminal building space (or adequate cargo building space, if Airline is not certificated as a scheduled passenger carrier) is made available to it at the Airport.

Article VI

Construction, Maintenance and Repair by Airline.

Section 6.01. Construction, maintenance and repair by Airline. Airline may either alone, or jointly with any one or more other Airline Parties, construct or install such communication meteorological and aerial navigation equipment as may be reasonably necessary or convenient to the conduct by Airline of air transportation, and such conduits, pits, covered trenches, ducts and other facilities, as may be reasonably necessary or convenient for power, light and communication purposes or for use in connection with the handling and servicing of aircraft, all as may be approved by the Commissioner of Aviation.

All such construction or installation by Airline shall be made in accordance with applicable laws and ordinances and after obtaining any requisite building or construction licenses or permits. Plans and specifications of any such proposed construction or installation (including any substantial alteration or addition thereto) shall be submitted to and receive the approval of the Commissioner of Public Works prior to the commencement of construction

or installation. Any structures, facilities and additions so constructed or installed by Airline shall be kept and maintained by it in good condition and repair. No restrictions, however, shall be placed upon Airline as to the architects, builders or contractors who may be employed by it in connection with any construction, installation, alteration, repair or maintenance of any such structures, facilities or additions.

Section 6.02. Performance by City upon failure of Airline to maintain. In the event Airline fails to perform for a period of thirty (30) days after notice from City so to do, any obligation required by this Article VI to be performed by Airline, City may do all things necessary to perform such obligation, charging the cost and expense thereof to Airline, and Airline agrees to pay City all such costs and expenses in addition to any other amounts payable by Airline hereunder; provided, however, that if Airline's failure to perform any such obligation endangers the safety of the public or of employees of City, and City so states in its notice to Airline, City may perform such obligation of Airline at any time after giving of such notice and charge to Airline, and Airline shall pay, as aforesaid, the cost and expense of said performance.

Article VII

Maintenance and Operation by City.

Section 7.01. Maintenance and operation of Airport. City shall operate, maintain and keep in good repair the areas and facilities described in Article I hereof, excepting any structures or facilities constructed or installed by Airline pursuant to Article VI hereof. City shall keep the Airport free from obstruction, including the removal of snow, vegetation, stones and other foreign matter, as reasonably as may be done, from landing, take-off, public ramp, and public parking areas.

City shall operate and maintain the Airport in all respects in a manner consistent with that of a reasonably prudent operator of an airport and in accordance with standards and ratings for airports of similar size and character issued by the Federal Aviation Agency and with the rules and regulations of the Federal Aviation Agency and any other governmental agency having jurisdiction thereof. City shall operate the Airport in a manner so as to produce, subject to the provisions of this Agreement, revenues from the Airport of a nature and amount which would be produced by a reasonably prudent operator of an airport.

In the event any operator selected by City for the purpose of providing transportation service to and from the Airport of passengers and their baggage shall not furnish such transportation in a satisfactory and efficient manner, City shall, upon request of the Airlines Representative, use its best efforts to correct such situation, including, if required, the selection of another operator if City has authority to do so under the terms of the applicable concession agreement, to the end that such transportation service is performed in a satisfactory and efficient manner.

City shall supply adequate lighting for the Airport, including adequate landing lights, floodlights, beacons and other field lighting.

City shall use its best efforts to keep the Airport open and in operation for landings and take-offs of aircraft of any type using facilities similar to those at the Airport.

City shall maintain order at the Airport.

Section 7.02 Enjoyment of Rights and Privileges. City agrees that Airline, performing its obligations hereunder, shall be entitled to and shall have the enjoyment of the rights and privileges granted to it hereunder, subject to the provisions hereof.

Section 7.03. Performance by Airline upon failure of City to maintain and operate. In the event City fails to perform, for a period of thirty (30) days after notice from Airline so to do, any obligation required by this Article VII to be performed by City, Airline may perform, by itself or jointly with any other Airline Parties, such obligation of City and bill City for the cost to Airline of such performance, but Airline shall not deduct any such cost from any amounts due hereunder or under any other agreement between Airline and City relating to the Airport unless at the time there are no Approved Revenue Bonds outstanding; provided, however, that if City's failure to perform any such obligation endangers the safety of Airline's operation at the Airport and Airline so states in its notice to City, Airline may perform, by itself or jointly with any other Airline Parties, such obligation of City at any time after the giving of such notice and bill City for its cost of such performance, but Airline shall not deduct any such cost from any amounts due hereunder or under any other agreement between Airline and City relating to the Airport unless at the time there are no Approved Revenue Bonds outstanding. City, however, shall not be liable to Airline for any loss of revenues to Airline resulting from any of City's acts, omissions or neglect in the maintenance and operation or otherwise by it of the Airport or any facilities now or hereafter connected therewith.

Article VIII

Rules and Regulations.

Airline shall observe and obey all rules and regulations governing the conduct and operation of the Airport, promulgated from time to time by City, which are reasonably required for the prudent and efficient operation of the Airport and are not inconsistent with the reasonable exercise by Airline of any right or privilege granted to it hereunder or under any other agreement between Airline and City relating to the Airport or any part thereof, nor inconsistent with safety nor with the rules and regulations of any Federal or State agency having jurisdiction with respect thereto, nor inconsistent with the procedures prescribed or approved from time to time by the Federal Aviation Agency or any other governmental authority having jurisdiction over flight operations at the Airport.

City shall keep Airline supplied with five (5) sets of City's current Airport rules and regulations applicable to Airline. Except in cases of emergency, no such rule or regulation shall be applicable to Airline unless it has been given fifteen (15) days notice of the adoption thereof.

City, however, shall have no control over the rates, fares or charges that Airline may prescribe in connection with its conduct of an air transportation business.

Article IX

Exercise by City of Governmental Functions.

Nothing contained herein shall impair the right of City in the exercise of its governmental functions to require Airline to pay any tax or inspection fees or to procure necessary permits or licenses, provided such requirement is not inconsistent with the rights and privileges granted to Airline hereunder.

Nothing contained herein shall be deemed to be the grant of any franchise, license, permit or con-

sent to Airline to operate motor coaches, buses, taxicabs or other vehicles carrying passengers or property for hire or other consideration over the public ways to and from the Airport.

Article X

Indemnity and Insurance.

Airline agrees to indemnify and hold City harmless from and against all liabilities, judgments, costs, damages and expenses which may accrue against, be charged to or recovered from City by reason or on account of damage to the property of City or the property of, injury to or death of any person, arising from Airline's use and occupancy of and operations at the Airport, including acts of its agents, contractors and subcontractors, except when caused by City's sole negligence or by the joint negligence of City and any person other than Airline, its agents, contractors and subcontractors; provided that City shall give Airline prompt and timely notice of any claim made or suit instituted which in any way affects Airline or its insurer, and Airline or its insurer shall have the right to compromise and defend the same to the extent of their own interests. Any final judgment rendered against City for any cause for which Airline is liable hereunder shall be conclusive against Airline as to liability and amount.

4. Lessor represents and warrants that on the date hereof and as of the first day of the term of this lease, the improvements on the demised premises are and will be structurally sound and in good condition and repair. During the term hereof, and subject to the provisions of this lease elsewhere set forth, Tenant covenants and agrees to take good care of the surfaced parking areas, gates and fences from damage caused by Lessee or its agents or employees, and the exterior of the buildings and other improvements and to keep same in good order and condition, reasonable wear and tear excepted, and to make all necessary repairs thereto, both interior and exterior, structural and non-structural, provided, however, that, except as hereinafter provided, the cost of such repairs and maintenance shall be borne entirely by Tenant. The cost of all exterior structural repairs, including repairs to the roof, shall be paid by the Lessor, provided Tenant notifies the Lessor in apt time to make such repairs, unless such repairs or damage to said premises are caused by the act or negligence of the Tenant, or any of its agents, or employees.

5. The Tenant may alter, rearrange, or change the interior of the building within the demised premises only upon the prior consent and approval of Joseph Levy or to such other nominee designated in writing by the Lessor for and on behalf of the Lessor, Provided:

(a) The Tenant shall notify the Lessor in writing, specifying in detail the alterations or additions contemplated.

(b) Such notice shall be accompanied by a plan, blue print, or diagram showing such pro-

posed alterations or additions; and Tenant is to perform said work as shown in a plan, blue print or diagram for a specified cost stated therein which is to be furnished to the Lessor.

(c) The Lessor shall, within reasonable time, indicate in writing its approval or disapproval of said contemplated alterations or additions.

(d) Lessee will and does hereby agree to indemnify and to hold and save harmless any of said premises of and from and against any and all claims, losses or damages, resulting from the failure of the Tenant, its agents, servants and employees or independent contractors to fully complete its alterations or additions in accordance with said plan or blue print, or to fully pay therefor, or to remove or bond any and all mechanics' liens filed against the demised premises or the building on which same form a part, for claims for work done or materials furnished, it being understood that Tenant's failure to remove or bond any such lien within ten (10) days after notice of filing thereof shall in and of itself constitute damage to the Lessor in the amount of said lien and any expenses it may be put to in removing the same, including attorneys' fees.

It is further mutually agreed that Tenant may at its expense, provided all necessary permits are obtained, install upon the demised premises underground gasoline or fuel storage tanks, together with pumps and other related Equipment used in conjunction with such storage tanks—it being understood that such pumps and related equipment shall be and forever remain the property of the Tenant, provided, however, that such storage tanks shall be treated as a permanent addition in accordance with the provisions of this Section 5.

All permanent additions to the improvements on the demised premises shall belong to Lessor and become part of the demised premises, except as hereinabove provided and except as provided in Section 8. All alterations and construction shall be made in a substantial manner and shall comply with the laws, ordinances and regulations governing the construction of the same, and Tenant shall save the Lessor harmless of and from any loss or damage by reason of any such alterations or construction. Tenant shall have the right to place upon or attach to any building or structure such signs or advertisements of its business as it shall deem fit, provided, however, that Tenant agrees to hold Lessor harmless from any liability therefrom, by reason of its acts of omission or commission, or that of its representatives, agents or employees.

6. During the entire term of the lease Lessor shall maintain in force insurance on the improvements located upon the demised premises against loss or damage by fire and other risks normally included by standard extended coverage endorsements up to 80% of the full insurable value thereon in co-insurance form. Such insurance shall be procured from a responsible insurance company or companies reasonably satisfactory to Tenant and authorized to do business in Illinois, and certificates evidencing such insurance shall be delivered to Tenant.

7. (a) In the event of total destruction of the demised premises by fire or other casualty the rent reserved hereunder shall abate in whole and either party may, upon notice to the other given within thirty (30) days after the date of such destruction, terminate this lease as of the date of such destruction or damage and in the event of such termination Lessor agrees to refund any prepaid unearned rent to Tenant. If neither party exercises its option to terminate in the event of total destruction, Lessor covenants and agrees to proceed with all reasonable diligence, at its sole cost and expense, to restore the demised premises to substantially the same condition they were in immediately prior to such destruction, and Tenant agrees upon completion of said restoration to re-occupy, as of the date of such completion, the demised premises for the remainder of the term of this lease and under the provisions hereof taken for these purposes as if such destruction had not occurred, provided, however, that if such restoration is not completed by the 180th day after such destruction, then this lease shall be terminated without further act of the parties.

(b) In the event that the premises are partially destroyed or damaged by fire or other casualty and if a licensed architect selected by the Tenant and acceptable to the Lessor shall certify that said destruction or damage may be restored and repaired within a period of time not to exceed 120 days from the date of such destruction or damage, then it is agreed that rent shall abate in whole or in part to the extent of the untenantability of the demised premises as reasonably determined by Tenant and Lessor, and Lessor covenants and agrees to proceed with all reasonable diligence at its sole cost and expense to repair and restore the demised premises to substantially the same condition they were in immediately prior to such damage or destruction. Upon completion of said repairs and restoration, the rent reserved under this lease shall resume as of the date of such completion, provided, however, that if such destruction or damage shall not be repaired or restored on or before the 120th day after the date of such destruction or damage, Tenant may at its option either complete said repairs and restoration at its own expense and deduct the cost thereof from the remaining installments of rent reserved hereunder, or terminate this lease upon notice given to Lessor no sooner than the 120th day after and no later than the 130th day after such destruction or damage.

In the event that the architect shall certify that the repair and restoration of any partial desruction or damage, as provided for in the next preceding paragraph cannot be restored within the time provided for therein, then such partial destruction or damage shall be considered as total destruction and the provisions of Section 7(a) shall apply.

(c) It is mutually covenanted and agreed that the provisions of Section 7(a) and Section 7(b) shall apply irrespective of the cause of any destruction or damage and irrespective of whether or not such destruction or damage is covered by insurance. Tenant shall in no event be liable to Lessor or any person or persons claiming through Lessor for any loss or damage resulting wholly or in part from fire or other casualty irrespective of the person or things causing such loss or damage.

8. Upon the termination of this lease at the expiration thereof or otherwise, or at any time during the continuance thereof, Tenant shall have the right at its own expense to remove from the demised premises any items furnished or installed by Tenant at Tenant's expense including without limiting the generality of the foregoing all portable shelving, apparatus, counters, carpeting, and other trade fixtures, machinery and equipment (excepting therefrom the items specified and provided in Para-

graph 5 herein); provided that upon Lessor's demand at the time of such removal, the portion or portions, if any, of the demised premises injured by such removal, shall be restored to their former condition, ordinary wear and tear and damage by fire or other casualty excepted.

9. Lessor covenants that Tenant, its successors and assigns, on paying the rent in accordance herewith, and performing the covenants herein contained, shall and may peacefully and quietly have, hold and enjoy the demised premises for the term aforesaid, or any extension or renewal thereof, but if any rent shall be due and unpaid, or if default shall be made by Tenant in any of the covenants herein contained to be by it performed, and such rent shall remain due and unpaid, or such default shall continue for thirty (30) days after written notice thereof to Tenant, then and in such event it shall be lawful for Lessor to reenter the premises and to remove all persons therefrom.

It is understood and agreed that in the event Lessor shall fail to perform any of the covenants and agreements herein contained on its part to be performed, and such default shall continue for thirty (30) days after written notice thereof shall have been given to Lessor by Tenant, Tenant may, at its option, either quit the premises and shall thereupon be freed from any liability to pay rent hereunder, and this lease shall thereupon be of no further force and effect; or Tenant may do the acts or things required of Lessor under this lease, and may thereupon deduct its expenditures, losses, and damages incurred in connection therewith from the rentals to be paid under this lease. It is understood and agreed that the failure of Tenant to elect to do either of the acts or things enumerated above does not thereby constitute a waiver of damages resulting from Lessor's breach of contract.

10. Except as otherwise provided in Section 7(a), Tenant agrees to indemnify, protect and save harmless the Lessor from any and all claims and demands for injury or damage to persons or property occurring on or about the demised premises and resulting from any act, neglect, or omission of Tenant, its agents or employees.

11. As hereinbefore provided, Tenant shall, during the term of this lease, have the right to use all garage equipment located on the premises. Such equipment, without limiting the generality of said words, shall include wheel alignment equipment, greasing equipment, lifts, tanks, pumps, compressors and equipment ordinarily used in connection with the operating of a garage, and which are installed in the demised premises at the beginning of the term hereof. A schedule of said property, belonging to the Lessor, and which shall remain Lessor's property, is described in, and designated as Exhibit "A", and hereinafter set forth.

Tenant agrees to maintain the garage equipment in good order and repair, reasonable wear and tear excepted.

12. Lessor shall have the right to remove all steel lockers now situated in said premises.

Lessor agrees, at its own expense, on and after the commencement of the term hereof, to remove or have removed all signs relating to any business heretofore conducted on the demised premises and inside of the demised premises. All outside signs shall remain upon said premises and shall not be removed by Tenant, excepting the electric signs on outside of building, which shall be removed by Lessor.

The Lessor does covenant and agree to black out all advertising on sign boards and building situated on the premises demised to the Tenant; and prior to March 1, 1964, Lessor agrees to replace or repair all of the downspouts where required; repair existing roof leaks; and paint the existing fence on said premises.

13. Except to the extent that Lessor may have otherwise agreed in writing, no waiver by Lessor of any breach by Tenant of any of its obligations, agreements or covenants hereunder shall be deemed to be a waiver of any subsequent breach of the same or any other covenant, agreement or obligation. Nor shall any forbearance by Lessor to seek a remedy for any breach by Tenant be deemed a waiver by Lessor of its rights or remedies with respect to such breach.

14. Except as hereinabove provided, all of the covenants, provisions, terms and conditions of this lease, whether so expressed or not, shall bind and inure to the benefit of the successors and assigns of the respective parties hereto.

15. None of the covenants, provisions, terms or conditions of this lease to be kept or performed by Lessor or Tenant shall be in any manner modified, waived or abandoned except by written instrument duly signed and delivered by Lessor and Tenant.

16. Any notice herein required or permitted to be given by Tenant to Lessor shall be deemed to have been properly given if and when sent by United States certified or registered mail, postage prepaid, properly addressed to Joseph Levy, or such other nominee designated in writing by the Lessor, at 5050 Dempster Street, Skokie, Illinois, for and on behalf of Lessor. Any notice herein required or permitted to be given by Lessor to Tenant shall be deemed to have been properly given if and when sent by United States certified or registered mail, postage prepaid, properly addressed to the Tenant at the address and office of the Comptroller of the City of Chicago, Room 501-City Hall, Chicago 2, Illinois.

17. Any recourse hereunder against American National Bank and Trust Company of Chicago is only to be against the trust estate.

18. It is mutually agreed that this lease shall not be construed to impose upon the Tenant the obligation to pay any general real estate taxes applicable to the demised premises.

19. All of the covenants, agreements, conditions and undertakings in this lease contained shall extend to and be binding upon the successors and premitted assignee of the respective parties, the same as if they were in every case named and expressed, and the same shall be construed as covenants running with the land.

In any event, Tenant is not to commence to exercise any of the rights and privileges granted under this agreement until such time as all insurance directed and required to be furnished by Tenant is in full force and effect.

Tenant expressly understands and agrees that any insurance protection furnished by Tenant hereunder shall in no way limit its responsibility to indemnify and save harmless Landlord under the provisions of Article VI of this agreement.

Article VIII

In the event the premises or the building of which the premises are a part shall be damaged or destroyed by fire or other casualty, the same shall be promptly repaired or rebuilt by Landlord at its expense as soon as funds are available but Landlord shall not be obligated to repair or rebuild any fixtures, equipment and other property installed by Tenant pursuant to this agreement.

In the event of any damage or destruction by fire or other casualty to the premises Tenant shall immediately, at its expense, replace and repair any and all fixtures, equipment and other property, installed by it pursuant to this agreement.

Article XI

If Tenant shall vacate or abandon the premises or permit the same to remain vacant or unoccupied for a period of ten (10) days, or in case of the nonpayment of the rent and charges reserved hereby, or any part thereof, or of the breach of any covenant in this agreement contained, Tenant's right to the possession of the premises thereupon shall terminate, with or without any notice or demand whatsoever, and the mere retention of possession thereafter by Tenant shall constitute a forcible detainer of said premises, and if the Landlord so elects, but not otherwise, this agreement shall thereupon terminate and upon the termination of Tenant's right of possession, as aforesaid, whether this agreement be terminated or not, Tenant agrees to surrender possession of the premises immediately, without the receipt of any demand for rent, notice to quit or demand for possession of the premises whatsoever, and Tenant hereby grants to Landlord full and free license to enter into and upon said premises, or any part thereof, to take possession thereof without process of law and to expel and remove Tenant, or any other person who may be occupying the premises, or any part thereof and Landlord may use such force in and about expelling and removing Tenant and said other person as may reasonably be necessary and Landlord may repossess itself of the said premises as of its former estate but said entry of said premises shall not constitute a trespass or forcible entry or detainer, nor shall it cause forfeiture of charges due by virtue hereof, nor a waiver of any covenant, agreement or promise in said agreement contained, to be performed by Tenant.

Tenant hereby waives all notice of any election made by Landlord under this agreement, demand for rent, notice to quit, demand for possession, and any and all notices and demands whatsoever, of any and every nature, which may or shall be required by any statute of this State relating to forcible entry and detainer, or to landlord and tenant, or any other statute, or by the common law during the terms of this agreement. The acceptance of rent, whether in a single instance or repeatedly, after it falls due, or after knowledge of any breach hereof by Tenant, or the giving or making of any notice or demand, whether, according to any statutory provision or not, or any act or series of acts, except an express written waiver, shall not be construed as a waiver of Landlord's right to act without notice or demand or of any other right hereby given Landlord, or as an election not to proceed under the provisions of this agreement.

If default be made in the payment of the rent, or other charges herein reserved, or of any installment thereof, as herein provided, Tenant does hereby irrevocably constitute any attorney of any Court of Record in this State, attorney for it and in its name, from time to time, to waive the issuance of process and service thereof, to waive trial by jury, to confess judgment in favor of Landlord and against Tenant for the amount of rent which may be then due, by virtue of the terms hereof, or of any extensions or renewals hereof, or by virtue of any holdover after the termination hereof, and which may be in default, as aforesaid, together with the costs of such proceedings and for said purposes to file in said cause his cognovit thereof, and to make an agreement in said cognovit, or elsewhere, waiving and releasing all errors which may intervene in any such proceeding and waiving and releasing all right of appeal and right to writ of error, and consenting to an immediate execution upon such judgment, and Tenant hereby confirms all that said attorney may lawfully do by virtue hereof. Landlord shall have a first lien on Tenant's interest hereunder, and on Tenant's property now or hereafter located in said premises, or elsewhere, to scure the payment of all moneys due hereunder, which lien may be foreclosed in equity and in case of any such foreclosure proceeding, a receiver shall be appointed to take possession of said premises and property and relet the premises under order of court.

The obligation of Tenant to pay the rent reserved hereby during the balance of the term hereof, or during any extension thereof, shall not be deemed to be waived, released or terminated, nor shall the right and power to confess judgment given in the preceding paragraph hereof be deemed to be waived or terminated by the service of any five-day notice, other notice to collect, demand for possession, or notice that the tenancy hereby created will be terminated on the date therein named, the institution of any action of forcible detainer or ejectment, or any judgment for possession that may be rendered in such action, or any other act or acts resulting in the termination of Tenant's right to possession of the premises. The Landlord may collect and receive any rent due from Tenant and payment or receipt thereof shall not waive or affect any such notice, demand, suit or judgment, or in any manner whatsoever waive, affect, change, modify or alter any rights or remedies which Landlord may have by virtue hereof.

Tenant shall pay and discharge all costs, expenses and attorney's fees which shall be incurred and expended by Landlord in enforcing the covenants and agreements of this agreement, whether by the institution of litigation or in the taking advice of counsel, or otherwise.

The rights and remedies hereby created are cumulative and the use of one remedy shall not be taken to exclude or waive the right to the use of another.

Article XII

Tenant shall observe and comply with all laws, ordinances, rules and regulations of the United States Government, State of Illinois, Counties of Cook and DuPage, City of Chicago and all agencies thereof which may be applicable to its operations or to the operation, management, maintenance or administration of the Airport, now in effect or hereafter promulgated.

If default be made in the payment of the rent, or other charges herein reserved, or of any installment thereof, as herein provided, Tenant does hereby irrevocably constitute any attorney of any Court of Record in this State, attorney for it and in its name, from time to time, to waive the issuance of process and service thereof, to waive trial by jury, to confess judgment in favor of Landlord and against Tenant for the amount of rent which may be then due, by virtue of the terms hereof, or of any extensions or renewals hereof, or by virtue of any holdover after the termination hereof, and which may be in default, as aforesaid, together with the costs of such proceedings and for said purposes to file in said cause his cognovit thereof, and to make an agreement in said cognovit, or elsewhere, waiving and releasing all errors which may intervene in any such proceeding and waiving and releasing all right of appeal and right to writ of error, and consenting to an immediate execution upon such judgment, and Tenant hereby confirms all that said attorney may lawfully do by virtue hereof. Landlord shall have a first lien on Tenant's interest hereunder, and on Tenant's property now or hereafter located in said premises, or elsewhere, to secure the payment of all moneys due hereunder, which lien may be foreclosed in equity and in case of any such foreclosure proceeding, a receiver shall be appointed to take possession of said premises and property and relet the premises under order of court.

The obligation of Tenant to pay the rent reserved hereby during the balance of the term hereof, or during any extension thereof, shall not be deemed to be waived, released or terminated, nor shall the right and power to confess judgment given in the preceding paragraph hereof be deemed to be waived or terminated by the service of any five-day notice, other notice to collect, demand for possession, or notice that the tenancy hereby created will be terminated on the date therein named, the institution of any action of forcible detainer or ejectment, or any judgment for possession that may be rendered in such action, or any other act or acts resulting in the termination of Tenant's right to possession of the premises. The Landlord may collect and receive any rent due from Tenant and payment or recipt thereof shall not waive or affect any such notice, demand suit or judgment, or in any manner whatsoever waive, affect, change, modify or alter any rights or remedies which Landlord may have by virtue hereof.

Tenant shall pay and discharge all costs, expenses and attorney's fees which shall be incurred and expended by Landlord in enforcing the covenants and agreements of this agreement, whether by the institution or litigation or in the taking advice of counsel, or otherwise.

The rights and remedies hereby created are cumulative and the use of one remedy shall not be taken to exclude or waive the right to the use of another.
